Manufacturer: POPPY HEAD

Referention number: DNXGKQHPDRMMKI

Information:

Poppy Head Browsome 03 Deep Brown is a creamy eyebrow pencil in a cool, neutral deep brown shade, ideal for darker brows. It helps shape, fill in sparse areas and define the natural arch without an overdone effect. The oval, flattened tip makes it easy both to quickly fill larger areas and to precisely refine the outline, lower line and brow tail. The built-in brush combs through the hairs, distributes the colour evenly and softens lines, ensuring a natural, polished finish.

Full product description

Brows in a few strokes

Poppy Head Browsome 03 Deep Brown is a creamy pencil that helps shape the brows, fill in visible sparse areas and define the natural arch. It allows you to build up colour intensity without an overdone effect.

Shade 03 Deep Brown

The cool, neutral shade of deep brown harmonises with darker brow colours. It lets you clearly accentuate the hairs, fill in gaps and achieve a polished finish.

Oval tip

The elongated, oval-flattened tip makes it easier to fill larger areas and emphasise selected parts of the brows. Its shape allows you to comfortably adapt the application method to the desired effect.

Fill and outline

The wider side of the tip helps you quickly fill in the brows and define their arch. The narrower edge allows you to refine the lower line, the brow tail and areas that require more precise application.

Eyebrow brush

The flexible brush on the other side of the pencil combs through the hairs and helps distribute the colour evenly. It softens sharp lines and gives the brows a more natural look.

Application method

Use the wider side of the tip to fill in the brows and emphasise their arch. Use the narrower edge to define the outline and refine the details. Finally, brush through the hairs to blend the colour.
