Manufacturer: POPPY HEAD

Referention number: DNXXGQHNKMMOP

Information:

The brightening, correcting under-eye concealer with medium, buildable coverage helps conceal dark circles, even out skin tone and refresh the eyes in just one swipe. The ultra-light, creamy formula blends into the skin, gives a natural, softly luminous soft-focus finish and does not weigh down the delicate eye area. It does not dry out the skin, does not create a mask-like effect and helps reduce settling into lines and wrinkles. The included brush makes quick, even blending easy, and the compact set is ideal for everyday use and touch-ups during the day.

Full product description

Correction and brightening

Correct, conceal, brighten — one swipe.

The brightening and correcting under-eye concealer offers medium, buildable coverage. Its ultra-light formula blends into the skin, helping to hide dark circles and even out skin tone without feeling heavy.

Natural finish

A subtly luminous finish and soft-focus effect make the under-eye area look smoother and more rested. The concealer does not create a mask-like effect and does not weigh down the delicate eye area.

Skin-like lightweight formula

The creamy texture spreads easily and does not dry out the skin. The formula helps prevent the product from settling into lines and wrinkles, leaving a soft finish.

Well-rested look

The concealer helps neutralise signs of fatigue and restore a fresh look to the eyes. You can apply it in layers, increasing coverage without creating a heavy layer.

Blending brush

The included brush makes it easy to apply the product quickly and evenly. The compact set is ideal for both everyday make-up and touch-ups on the go.

How to use

Apply a small amount of concealer under the eyes, on the eyelids or on areas requiring correction. Spread the product with the applicator, then blend with a brush, finger or sponge. If needed, add another thin layer.
