Manufacturer: POPPY HEAD

Referention number: DNXGKQHOERMMKJ

Information:

The brightening and correcting under-eye concealer with medium, buildable coverage helps conceal dark circles, even out skin tone and refresh the look. The ultra-light, creamy formula blends easily into the skin, does not dry it out and helps reduce settling into lines and wrinkles. A slightly luminous, natural finish with a soft focus effect optically smooths the eye area without a mask-like effect. The included brush makes quick blending and precise application easy for everyday makeup and touch-ups throughout the day.

Full product description

Correction and Brightening

Correct, conceal, brighten — one swipe.

The brightening and correcting under-eye concealer offers medium coverage with buildable intensity. Its ultra-light formula helps hide dark circles, even out skin tone and restore a fresh look to the eyes without a heavy feel.

Natural Finish

A lightly luminous finish with a soft-focus effect visually smooths the skin under the eyes. The concealer does not create a mask-like effect, so the makeup looks light and natural.

Ultra-Light Formula

The creamy texture blends easily with the skin, does not dry it out and helps reduce product settling into lines and wrinkles. It leaves the eye area soft and visually smoothed.

Buildable Coverage

The concealer allows you to gradually increase coverage by applying thin layers. It helps neutralise signs of fatigue and conceal imperfections without weighing down the skin.

Blending Brush

The included brush makes it easy to apply the product quickly and evenly. The compact set is ideal for everyday makeup and touch-ups away from home.

How to Use

Apply a small amount of concealer under the eyes, on the eyelids or to areas requiring correction. Spread it with the applicator, then blend with the included brush, your finger or a sponge. If needed, add another thin layer.
