### Information:

POPPY HEAD Gelusion Eyeliner 02 Cafusion is an intensely pigmented gel eyeliner in a deep, cool espresso brown shade. The creamy-gel formula glides smoothly over the eyelid, makes it easy to draw precise thin and thick lines, and allows you to build the effect from subtle to graphic. Once set, it is waterproof and smudge-resistant, so your makeup stays defined for many hours. The built-in brush ensures convenient application at home and on the go.

### Full product description

### Deep espresso brown

POPPY HEAD Gelusion Eyeliner 02 Cafusion is a gel eyeliner in a deep, cool brown shade inspired by strong espresso. The intensely pigmented colour enhances the eyes and works equally well for everyday makeup and more striking looks.

### **Creamy-gel formula**

The soft texture glides smoothly over the eyelid, making it easy to draw an even line without tugging at the skin. The formula lets you freely build the shape and intensity of your eye makeup.

### **From subtle to graphic**

Gelusion makes it possible to create a thin line along the lashes, a classic wing, or bolder graphic shapes. The easy-to-spread texture gives you control over every stage of application.

### **Smudge-resistant colour**

Once set, the waterproof formula stays in place and is resistant to smudging. The rich brown retains its intensity, helping to keep the line looking defined for many hours.

### **Brush always to hand**

The brush built into the packaging makes it easy to draw both thin and thicker lines. This practical solution is ideal for makeup at home, while travelling, and for touch-ups.

## How to apply

Take a small amount of product onto the built-in brush and gently spread it on the back of your hand or inside the cap to coat the bristles evenly. Draw a line along the lash line or create a more defined shape, then allow the formula to set.
