Information:

POPPY HEAD Gelusion Eyeliner 03 Marooned is a gel eyeliner in an intense burgundy shade that beautifully enhances the eyes and works well for both everyday and evening make-up. The creamy-gel formula glides smoothly over the eyelid, makes precise application easier and allows you to build the intensity and shape of the line. Once set, it becomes waterproof and smudge-resistant, so the make-up stays neat for many hours. The built-in brush ensures easy creation of thin and thick lines, as well as quick touch-ups.

Full product description

Intense Burgundy

POPPY HEAD Gelusion Eyeliner 03 Marooned is a gel eyeliner in an intense burgundy shade. The saturated colour distinctly enhances the eyes and allows you to vary both everyday and evening eye make-up.

Cream-gel formula

The soft texture glides smoothly across the eyelid, making it easy to draw an even line without pulling the skin. The formula allows you to freely build the shape and intensity of your make-up.

A line in your style

Gelusion makes it possible to create a thin line along the lashes, a classic wing, or more striking graphic shapes. The easy-to-spread texture helps you maintain control at every stage of application.

Smudge resistance

Once set, the waterproof formula stays in place and is resistant to smudging. The intense burgundy keeps its bold appearance, helping to maintain an elegant line for many hours.

Brush included in the packaging

The built-in brush allows you to draw both thin and thicker lines with ease. The practical design means the applicator is always at hand when applying make-up and making quick touch-ups.

How to apply

Take a small amount of product onto the built-in brush and gently spread it on the back of your hand or inside the cap to coat the bristles evenly. Draw a line along the lash line or create a more defined shape, then allow the formula to set.
