Information:

Poppy Head Jamorous Lip Mask 02 Nude Wink is a rich lip mask combining care with a subtle beige colour and shine. The formula melts on the lips, providing comfort, hydration and protection against dryness. Sodium hyaluronate, ceramides, centella asiatica and a vitamin B5 derivative support regeneration, soothe and soften the lips, while shea butter and grapeseed oil nourish and smooth dry skin flakes. The pudding-jelly texture is non-sticky, and the built-in spatula makes hygienic application easy. Ideal for day and night.

Full product description

Poppy Head Jamorous

Poppy Head Jamorous Lip Mask 02 Nude Wink is a rich lip mask that combines care with subtle colour and shine. The formula melts with the warmth of the skin, enveloping the lips in a comfortable layer and enhancing their well-groomed appearance.

Hydration and regeneration

Sodium hyaluronate helps maintain moisture, while ceramides support regeneration and protect the lips from dryness. Centella asiatica extract and a vitamin B5 derivative soothe the skin and help restore its softness.

Nourishment and smoothing

Shea butter and grape seed oil nourish the lips and help smooth dry skin flakes. The caring formula makes the lips look softer, smoother and well cared for.

Shade 02 Nude Wink

A warm beige shade with shimmering particles gives the lips subtle colour and a juicy glow. The whole experience is complemented by a pleasant hint of chocolate, making daily application more enjoyable.

Jelly texture

The pudding-like jelly texture spreads smoothly on the lips and does not leave an unpleasant sticky feeling. The product can be applied in a thin layer for delicate colour and shine, or in a thicker layer for more intensive care.

For day and night

The built-in, removable spatula allows for convenient and hygienic application of the mask. During the day, apply a thin layer for hydration, colour and shine. At night, apply a thicker layer as a nourishing compress.
