Information:

Poppy Head Just Enough Everyday Glow 03 Shine Agenda is a compact palette of three shimmering eyeshadows in light, peach and brown shades, ideal for everyday and evening make-up. The luminous finish beautifully reflects light and enhances the eyes with a subtle or more striking glow. The shadows can be applied individually or blended together to create different effects. The small packaging fits easily into a make-up bag, and the simple application with a brush or finger means you can create your look quickly and effortlessly.

Full product description

Just enough. Always right.

Three shimmering eyeshadows that let you create an eye-catching eye look without unnecessary steps. The Poppy Head Just Enough Everyday Glow 03 Shine Agenda palette combines light, wearable shades suitable for both everyday wear and an evening out.

Three luminous shades

The palette contains three complementary colours with a sparkly, luminous finish. You can apply one of them or combine all three, building a look suited to the occasion and the desired effect.

Glow for every occasion

The shades reflect light and enhance the eyes with a visible sheen. The light, peach and brown tones make it possible to create both a subtle brightening of the eyelid and a more defined look.

Compact format

The small case holds three useful shades and fits easily into a makeup bag or handbag. You can keep the palette close at hand when travelling, for a quick make-up before going out, or for touch-ups during the day.

Simple application

You can apply the eyeshadows with a brush or gently pat them on with your finger. Apply them individually, combine them together, or build up the intensity of the glow to achieve a result suited to everyday or evening make-up.

Shine Agenda 03

The 03 Everyday Glow Shine Agenda variant contains three light, luminous eyeshadows that complement one another. It is a ready-made set for brightening the inner corner, enhancing the mobile eyelid and accentuating the outer part of the eye.
