Price: **14.90 zł** gross / 12.11 zł net

Manufacturer: POPPY HEAD

Referention number: DNXGKQHKRMMOH

Information:

The LOVRO gel lip liner in a natural nude shade glides smoothly over the skin, making it easy to precisely define the contour, even out the lip line and visually enlarge the lips. The creamy, easy-to-apply formula allows the colour intensity to be built up gradually, and once set it helps keep make-up in place. The product is suitable both for outlining the lips and as a base or for filling in the entire surface, extending the wear of lipstick or gloss. Ideal for subtle daytime make-up and more defined looks.

Full product description

Contour under control

LOVRO gel lip liner glides smoothly over the skin, making it easier to define the natural lip contour. It helps define, even out or visually enlarge the lips depending on the desired effect.

Natural nude shade

The colour harmonises with the natural lip tone and works well both in subtle daytime make-up and in more striking looks. The contour can be gently blended or left more defined.

Smooth gel formula

The creamy consistency makes it easy to apply the lip liner without much pressure. The formula allows you to gradually build colour intensity and evenly cover selected areas of the lips.

Shaping the lip shape

The lip liner makes it possible to define the Cupid's bow, even out the lip line and emphasise their shape. After application, the formula sets, helping to keep your make-up in place.

Lip liner or base

The product can be used to outline the lips or to fill in the entire surface. Used as a base under lipstick or gloss, it helps prolong the longevity of make-up.

Simple way to use

Outline the lips by running the lip liner along their natural line. For fuller coverage, fill in the centre of the lips with colour as well, then apply your chosen lipstick or gloss.
