Information:

Poppy Head Lockwear 02 Blush Hour is a gel lip liner in a nude shade with a pink tone that enhances the natural shape of the lips and helps to visually sculpt them. The smooth, creamy formula glides easily over the skin, allowing precise outlining, evening out asymmetry and building up colour intensity. After application, it sets, reducing smudging and extending the wear of make-up. It works both for outlining only and for filling in the entire lips, as well as a base under lipstick, gloss or oil.

Full product description

Lip contour under control

Poppy Head Lockwear 02 Blush Hour is a gel lip liner that helps emphasise their natural shape. It allows you to outline, even out and visually sculpt the lip contour, while the nude shade with a pink tone suits everyday and more expressive make-up looks.

Gel, smooth formula

The creamy texture glides smoothly over the lips, making it easy to draw an even line without pressing hard. The liner lets you build up the colour intensity and easily tailor the effect to the chosen make-up style.

A formula that sets

After application, the formula sets and stays in place. It helps reduce smudging of the lip contour and contributes to longer-lasting lip make-up created with lipstick, oil or gloss.

Shaping the lip shape

The liner allows you to accentuate the Cupid's bow, even out asymmetry and gently visually enlarge the lips. It can be used both to define the outline itself and for more advanced shaping of their form.

Shade 02 Blush Hour

Blush Hour is a nude shade with a pink tone that enhances the natural colour of the lips. It works well worn on its own, paired with clear gloss or as a complement to make-up created with lipstick.

Contour or full coverage

Outline the lips by running the liner along their natural line, or go slightly beyond the contour to achieve a visually plumping effect. You can also fill the entire lip surface with colour and use the product as a base for further make-up.
