Manufacturer: POPPY HEAD

Referention number: DNXXGQHMMRMPP

Information:

Poppy Head Lockwear 03 Nude Alarm is a gel lip liner that precisely defines, evens out and shapes the lips, while also allowing them to be optically enlarged. Its smooth, creamy formula glides easily over the skin, making it simple to apply evenly and correct the contour. Once applied, it sets, helping make-up stay in place and last longer. The liner can be used both to outline the lips and as a long-lasting base for lipstick, gloss or lip oil. The nude shade 03 Nude Alarm suits natural lips and many make-up styles.

Full product description

Contour under control

Poppy Head Lockwear 03 Nude Alarm is a gel lip liner that helps define, even out and shape the lips. You can use it to emphasise the natural contour or to make the lips appear fuller.

Gel, smooth formula

The creamy texture glides smoothly over the skin, making it easy to draw an even line. The formula lets you comfortably outline the lips and fill in areas that need correction.

Setting effect

After application, the lip liner sets and stays in place. This helps the lip contour keep its shape, and lipstick or gloss can last longer.

Lip liner and base

You can use Poppy Head Lockwear to outline the lips or apply it over the entire surface. Filling in the lips with the liner creates a long-lasting base for lipstick, gloss or lip oil.

Shade 03 Nude Alarm

The 03 Nude Alarm variant represents a range of nude shades that can be matched to the natural lip colour and the chosen make-up style. The lip liner works well both on its own and in combination with other products.

Directions for use

Outline the lips by tracing the lip liner along their natural line. If you want to correct or visually enlarge the shape, gently draw the line slightly beyond the contour. You can also apply the product over the entire lips as a base for further make-up.
