Information:

Glossfixion is a liquid lipstick with a vinyl shine that combines an intense, glossy effect with long-lasting colour. It creates a striking lip look, enhances the shape of the lips and remains comfortable to wear all day. The lightweight, non-sticky formula does not weigh the lips down, while the colour stays rich despite the glossy finish. The collection includes three shades: 01 Nudit – a neutral beige with pink, 02 Rosit – a cool, muted pink, and 03 Kissit – a neutral pink with a hint of brown.

Full product description

Vinyl shine

Vinyl shine. All-day time.

Glossfixion is a liquid lipstick that combines intense shine with long-lasting colour. It creates a vinyl-like finish on the lips and clearly enhances their shape.

Long-lasting colour

The formula combines a glossy finish with the durability characteristic of matte lipsticks. The colour remains vivid, while the lips retain an intense shine effect.

Light formula

The lipstick has a light and comfortable texture that does not weigh down the lips. It is non-sticky, allowing you to create a bold make-up look without an unpleasant sticky feeling.

Shine and comfort

Glossfixion combines strong shine with rich colour. It helps create an eye-catching lip make-up look while maintaining a light and comfortable finish.

Three shades

The collection includes three colours: 01 Nudit - a neutral beige with a hint of pink, 02 Rosit - a cool, muted pink, and 03 Kissit - a neutral pink with a touch of brown that enhances the natural redness of the lips.

Directions for use

Before application, shake the packaging thoroughly. Apply a thin, even layer of lipstick to the lips and wait until it has completely set. During this time, do not press or rub your lips together.
