Information:

Poppy Head Glossfixion is a setting liquid lipstick that combines intense colour with a vinyl-like finish and lasting wear for many hours. Shade 03 Kissit is a neutral pink with a subtle hint of brown that enhances the natural red of the lips and suits both everyday and more striking makeup looks. The lightweight, comfortable formula spreads easily, is non-sticky and does not weigh down the lips, while a thin layer provides even coverage and a glossy finish that makes the lips look fuller.

Full product description

Vinyl shine and colour

Poppy Head Glossfixion is a setting liquid lipstick that combines intense shine with the durability of a matte formula. It creates a vinyl-like finish on the lips and enhances make-up with vivid colour.

Shade 03 Kissit

Neutral pink with a subtle hint of brown enhances the natural redness of the lips. The versatile colour works well for everyday make-up as well as more striking looks.

Vinyl-like finish

The glossy finish reflects light, making the lips look fuller and more defined. Glossfixion offers the effect characteristic of a lip gloss, combined with the long-lasting colour of a lipstick.

Lightweight formula

The comfortable texture spreads evenly on the lips, does not feel sticky and does not cause a heavy sensation. A thin layer is enough to achieve even coverage and a glossy finish.

Colour that lasts longer

The setting formula helps maintain the colour and vinyl shine for many hours. The lipstick remains comfortable on the lips, so it does not require frequent touch-ups during the day or for an evening out.

How to apply

Shake the container thoroughly before use. Apply a thin, even layer to the lips, then leave it to set completely. During this time, avoid rubbing and pressing the lips together.
