Information:

POPPY HEAD Shapeshift is a multifunctional face and eye palette with six shades that lets you set make-up, contour features, warm up the complexion and add colour and glow. It contains transparent blurify powder, neutral-cool outline bronzer, warm heatwave bronzer, matte apricity blush, luminous bloomrise blush and champagne glasshour highlighter. The formulas blend easily, deliver a harmonious finish and also work on the eyelids. The compact palette is ideal for everyday use and travel.

Full product description

Full range of possibilities

POPPY HEAD Shapeshift is a multifunctional palette for face and eye make-up. Six shades allow you to set your make-up, contour your features, warm up your complexion, and add colour and a luminous finish.

Setting and contouring

The transparent baked blurify powder helps set your make-up, while the neutral-cool outline bronzer allows you to define facial contours. Both products blend easily and help achieve a harmonious finish.

Warmth and glow effect

The heatwave bronzer gives the complexion a warmer, sun-kissed look and a subtle glow. You can apply it on its own or combine it with the cooler outline shade to contour the face more precisely.

Two blush shades

The matte apricity blush in an apricot shade adds natural freshness to the complexion. The illuminating bloomrise in a peach tone combines colour with a subtle glow, allowing you to tailor the effect to your make-up.

Champagne radiance

The baked glasshour highlighter has a universal champagne shade. Applied to the cheekbones, Cupid's bow or eyelids, it reflects light and helps accentuate selected areas of the face.

Face and eye make-up

The shades can also be used on the eyelids, creating a cohesive eye make-up look. The flat, compact palette holds a complete set for finishing your make-up, making it ideal for use at home and while travelling.
