Manufacturer: POPPY HEAD

Referention number: DNXGKQHNHRMMMI

Information:

POPPY HEAD Sheerious Lip Tint is a tinting lip oil that combines intense, glassy shine with a delicate coral-pink colour. It enhances the natural shade of the lips, gives them a fresh, smooth and visually fuller look, and, thanks to its transparent formula, subtly brightens the make-up. The soft applicator ensures easy, even application without a mirror, ideal for quick touch-ups during the day. The comfortable, enveloping texture lasts on the lips for a long time, while menthol provides a pleasant cooling and fresh sensation. The product can be worn alone, with lip liner or over a matte lipstick to add shine.

Full product description

Juicy lip shine

POPPY HEAD Sheerious Lip Tint is a tinting lip oil that combines an intense, glass-like shine with a delicate coral-pink colour. It enhances the natural shade of the lips and makes them look fresh, smooth and visually fuller.

Convenient application

The soft applicator makes it easy to spread the product evenly across the entire surface of the lips. The oil can be applied without a mirror, so it is ideal for quick make-up touch-ups during the day.

Fresh coral tint

The transparent tint gently enhances the natural lip colour towards a fresh coral-pink shade. The versatile effect suits both light daytime make-up and a more striking evening look.

Glass-like glow effect

Microscopic particles remain invisible on the lips, while at the same time enhancing the glass-like effect. The formula reflects light, giving the lips a juicy, luminous finish without a heavy look.

Comfort and freshness

The enveloping texture keeps the lips comfortable and lasts on them for a long time for an oil formula. The addition of menthol leaves a pleasant cooling and fresh sensation while wearing the product.

Three ways to use

Apply the oil on its own for fresh colour and shine, combine it with a lip liner for stronger definition of the lip shape, or apply it over a matte lipstick to add shine and revive the shade.
