Full product description

Poppy Head Smudgic

Poppy Head Smudgic Velvet Matt Lipstick 05 Soft Enchant is a lipstick pencil that defines the shape of the lips and allows you to subtly sculpt them. The soft formula gives the lips a natural colour and a comfortable, velvety-matte finish.

Velvety-matte effect

The lipstick leaves a soft, matte finish on the lips that does not look heavy. The 05 Soft Enchant shade naturally enhances the lips and works well for both everyday and more striking make-up looks.

Creamy application

The creamy formula glides smoothly over the lips, making it easy to outline the contour and fill it in with colour. The effect can be built up — from a delicately smoky shade to more strongly defined lips.

Built-in smudger

The built-in smudger helps blend the contour and soften its line. It allows you to achieve subtle colour transitions, a smoky-lip effect or a more natural finish without a clearly defined edge.

Defined lip shape

The lipstick helps to visually sculpt the contour and give the lips a fuller appearance. It can be used as a standalone product or to create a matte base for gloss or another lipstick.

How to apply

Outline the lip contour, then fill it in with colour. Blend the line with the smudger for a soft effect, or leave it more defined. You can also gently dab the product over the entire surface of the lips.
