Price: **19.90 zł** gross / 16.18 zł net

Manufacturer: POPPY HEAD

Referention number: DNXGKQHQRMMPL

Information:

The soft lip pencil with a velvety-matte finish defines the contour and allows you to subtly shape the lips while maintaining a natural effect. The creamy formula glides smoothly over the lips, making even application easy and allowing the colour to be built up from a delicate, smoky effect to a more intense finish. Thanks to the built-in smudger, you can easily blend the line and achieve softly defined, optically fuller lips without any extra accessories. The product is suitable both for outlining and for filling in the entire lips, and the availability of six nude shades allows you to match the colour to your style and the occasion.

Full product description

Velvet-matte effect

The soft lip pencil offers a comfortable, velvet-matte finish. It defines the contour and allows subtle shaping of the lips, while maintaining the natural look of the colour.

Creamy formula

The formula glides smoothly over the lips, making even application easy. The colour can be blended and built up freely — from a delicate smoky effect to a more intense finish.

Subtle shaping

The pencil helps define, even out and visually shape the lip contour. You can use it to outline the lips or apply the colour over the entire surface.

Built-in smudger

The smudger at the end of the pencil allows you to blend the contour and soften its lines. It helps achieve a subtly blurred effect without using any additional accessories.

Naturally fuller lips

A properly defined and blended contour makes the lips look fuller, softer and naturally defined. The lightweight formula does not create a heavy effect.

How to use

Outline the lips with the pencil, then leave a defined contour or blend it with the smudger. You can apply the colour over the entire lips or gently pat it on. The product is available in six nude shades.
