Price: **19.90 zł** gross / 16.18 zł net

Manufacturer: POPPY HEAD

Referention number: DNXGKQHQRMMNN

Information:

Soft lip pencil with a velvety-matte finish that defines the contour, subtly shapes the lips and visually gives them a fuller look. The creamy formula applies smoothly, blends easily and allows you to build colour intensity from a delicate effect to a more striking look. It can be used to outline or fill in the lips, and the built-in smudger makes it easy to soften the line without extra accessories. The lightweight, natural-looking formula is available in six nude shades.

Full product description

Velvet matte

The soft lip pencil offers a comfortable, velvet-matte finish. It defines the contour and allows you to subtly shape the lips while maintaining a natural effect.

Creamy formula

The pencil glides smoothly over the lips, making it easy to apply colour evenly. The formula can be blended and built up — from a delicate smoky effect to a more striking look.

Lip shaping

The lipstick helps define, even out and visually shape the contour. It can be used both to outline the lips and to cover them with colour.

Built-in smudger

The smudger placed at the end of the pencil allows you to blend the contour and soften its line. It gives a subtle blurred effect without the need for additional accessories.

Naturally fuller lips

A properly defined and blended contour makes the lips look fuller, softer and naturally defined. The lightweight formula does not create a heavy effect.

How to use

Outline the lips with the pencil, then leave a clear line or blend it with the smudger. You can apply the colour all over the lips or gently pat it on. The product is available in six nude shades.
