Information:

Poppy Head Wetlight All Over Glow 02 Glitterini is a liquid highlighter for the face and body that gives the skin a wet, sun-kissed glow effect. The peach shade with shimmering particles warms the complexion, beautifully reflects light and creates a multidimensional radiance. The product visually smooths and enhances features, working well on the cheekbones, décolleté, shoulders and legs. It can be used on its own or as a luminous finish to makeup.

Full product description

Poppy Head Wetlight

Poppy Head Wetlight All Over Glow 02 Glitterini is a liquid highlighter for the face and body. The peach shade with shimmering particles gives the skin a wet sun-kissed glow effect and reflects light vividly.

Wet glow effect

The highlighter leaves a luminous finish on the skin that catches the eye and enhances its appearance with every movement. It helps achieve a sun-kissed skin effect in both light and more intense makeup looks.

Shade 02 Glitterini

Glitterini combines a peach colour with shimmering particles. The shade warms up the look of the skin and creates a multidimensional glow that becomes more visible in the light.

For face and body

The formula can be applied to the cheekbones, décolletage, shoulders and legs. On the face it creates a luminous accent, while on the body it delivers a more visible sun-kissed glow effect.

Optical smoothing

The luminous finish visually smooths and firms the skin. The product highlights areas where light naturally falls, helping to accentuate facial features and exposed parts of the body.

Application method

Apply the highlighter to the décolletage, shoulders or legs to give the skin a wet glow. On the face, use it on its own for a light makeup look or as a luminous accent in a full look. The effect can be set with a pressed highlighter or powder.
