Manufacturer: WANBO

Referention number: DNXGKQHRJRMNHI

Information:

Wanbo Cube 2S is a compact Full HD 1080p projector with 500 ANSI lumens brightness, designed for home entertainment. Thanks to VIDAA Smart TV OS, it provides convenient access to apps and online content without additional devices, while support for Widevine L1 and PlayReady 4.0 enables use of popular streaming services. ToF automatic image correction and autofocus make setup quick and easy, and the 50-100% zoom helps adjust the projection size. The 230° Gimbal rotating design allows flexible placement on a table, shelf or ceiling. A built-in 8 W speaker with Dolby Audio, Wi-Fi 2.4/5 GHz, and HDMI, USB and AUX ports enhance ease of use.

Full product description

Wanbo Cube 2S - compact Full HD projector with VIDAA system

Wanbo Cube 2S is a smart projector in Dark Blue that combines a compact design with multimedia features intended for home entertainment. The device uses the VIDAA Smart TV OS, giving access to apps and online content without the need to connect an additional device. The housing, measuring 113 × 111 × 212 mm and weighing 1.64 kg, makes the projector easy to move and adapt to different usage locations.

Smart System Fast & Effortless

This projector-optimized smart system boots fast and runs smoothly with a clean, family-friendly interface.

Full HD image and 500 ANSI lumens brightness

The Wanbo Cube 2S projector offers a native resolution of 1920 × 1080 Full HD, allowing you to display a detailed image when watching films, series and other multimedia content. A brightness level of 500 ANSI lumens enables comfortable use of the projector in suitably prepared lighting conditions. The device supports projection from 40 to 120 inches at a throw distance of 1.2 to 3.4 m.

500 ANSI Lumens & Native 1080P Boldly Bright & Sharp

500 ANSI true lumens and native 1080P FHD deliver bright, crisp visuals for a true cinematic home experience.

Automatic image adjustment with ToF

Wanbo Cube 2S uses ToF technology for automatic image correction. The auto focus function helps prepare the projector for use quickly, without the need for manual adjustment each time. The device also offers a zoom function in the 50-100% range, allowing the size of the displayed image to be matched to the available space.

230° Gimbal rotating design

The projector design is equipped with a wide-angle Gimbal rotating mechanism that allows the device position to be adjusted through 230 degrees. This means the Wanbo Cube 2S can be set in various projection positions, including on a table, shelf or in a ceiling-mounted setup. The projector supports front, rear and ceiling projection modes.

VIDAA Smart TV OS and multimedia support

The VIDAA Smart TV OS provides access to smart TV functions in the compact form of a projector. Wanbo Cube 2S supports Widevine L1 and PlayReady 4.0 security, enabling use with compatible streaming platforms. Dual-band WiFi 2.4/5 GHz connectivity allows convenient connection of the device to a wireless network.

Endless Apps Ready When You Are

Supports 1,800+ apps like Netflix, YouTube, Prime Video, and Disney+ for endless instant content.

NETFLIX YouTube Disney+ prime video

Sound and wide connectivity options

The Wanbo Cube 2S projector is equipped with a built-in 8 W speaker, allowing the device to be used without an additional audio system. The design supports Dolby Audio technology, which affects how sound is reproduced when watching multimedia content. Users also have HDMI, USB and AUX ports available, allowing additional image sources and accessories to be connected.

 **Dolby Audio**

Upgraded Dolby Audio brings immersive cinema sound for every scene.
