Information:

WANBO Mozart 1S is a home Full HD 1080p projector with 1200 ANSI lumens brightness, HDR10 support and 3000:1 contrast, delivering a clear image for films, series and sport. The sealed PixelPro 5.0 optical system helps protect against dust, while autofocus, geometry correction and obstacle detection make setup quick and easy. The integrated 150° gimbal base also lets you project onto the ceiling. The VIDAA OS system provides access to popular streaming apps, and Miracast and AirPlay support adds convenience. 20 W sound with Dolby Audio, Wi-Fi, Bluetooth and wide connectivity make it a complete entertainment centre.

Full product description

WANBO Mozart 1S - home cinema

WANBO Mozart 1S is a projector designed for films, series, sports broadcasts and everyday entertainment on a large screen. Native Full HD resolution of 1920 × 1080, brightness of 1200 ANSI lumens and HDR10 support help deliver a detailed and clear image. The dark blue version uses the VIDAA OS system, and the built-in gimbal base makes it easy to adjust the projection direction to suit the room.

Full HD, HDR10 and 1200 ANSI

The projector uses LCD technology and displays images in native 1080p resolution. Brightness of 1200 ANSI lumens combined with a 3000:1 contrast ratio and HDR10 helps reproduce details in bright and dark parts of the image more accurately. The fully sealed PixelPro 5.0 optical system helps reduce dust ingress into the optical components, and the stated light source lifespan exceeds 20,000 hours. The device automatically focuses, corrects image geometry, adjusts the projection to the screen and detects obstacles.

 HDR10 Vision	 HDMI 2.1 4K Signal Input	 MT9660	VIDAA OS Supports 1800+ apps 	PixelPro 5.0 Full Enclosed Optical Machine 
 Dolby Audio 		 1100 ANSI Ultra-high lumens	 20W Speaker Deepened to 20Hz	
 1080P FHD		 3000:1 Contrast	 20,000 Hours Lifespan	
 Auto Focus	 Auto Keystone Correction	 Auto Screen Fit	 Obstacle Avoidance	

150° gimbal base

The integrated gimbal base allows the projector position to be adjusted from 0° to 150°. This means the image can be directed not only at a wall, but also at the ceiling, without the need for an additional mount. This solution makes it easier to use the projector in a living room, bedroom or other rooms where the device's placement may change.

150°Gimbal Stand Freedom and Flexibility

The wide-angle bracket allows you to project images onto the ceiling in seconds, unlocking more viewing angles.

VIDAA OS and convenient operation

Mozart 1S runs on the VIDAA OS system based on the Linux platform. The system provides access to more than 1,800 apps, including popular streaming services such as Netflix, YouTube, Prime Video, Disney+ and HBO Max. The projector also supports VIDAA Voice and wireless screen sharing via Miracast and AirPlay. The HDMI 2.1 TMDS port can accept a 4K HDR signal, while the native resolution of the displayed image remains Full HD 1080p.
