Information:

Xiaomi Mijia Smart Steam Air Fryer 7L EU is a versatile air fryer combining 360° hot air circulation with steam cooking, so dishes are crispy on the outside and juicy on the inside. The 7 l capacity allows you to prepare larger portions for the whole family, and the included rack enables two-layer cooking. The device offers a temperature range of 40-230°C, 10 cooking functions, a 7-inch viewing window and 25 preset recipes. A 1.5 l water tank and steam up to 130°C support fast and even cooking. Integration with Xiaomi Home and HyperOS Connect provides convenient operation and access to over 100 online recipes. Additional drying and odour removal functions make cleaning and everyday use easier.

Full product description

Xiaomi Mijia Smart Steam Air Fryer 7L EU - oil-free air fryer with steam function

Xiaomi Mijia Smart Steam Air Fryer 7L EU is a device combining the functions of an oil-free air fryer and steam cooking. Thanks to its 7-litre capacity, it allows you to prepare a larger amount of food in a single cycle, making it suitable for everyday cooking for the whole family. The device's design allows you to use various cooking methods, from crispy snacks to dishes requiring more delicate heat treatment.

Combination of hot air and steam for a variety of dishes

The Mijia Smart Steam Air Fryer 7L model uses a combination of 360° hot air circulation and dynamic steam. The steam system helps retain the juiciness of the ingredients being prepared, while the hot air is responsible for achieving a crispy surface on dishes. The 1.5-litre water tank enables a continuous supply of steam during cooking.

Cooking with high-temperature steam

The Xiaomi air fryer uses a steam generation system with a temperature of up to 130°C. The manufacturer states that the steam system power is 900 W, which allows the steaming process to start quickly. This solution helps heat ingredients evenly and maintain the proper texture of the prepared food.

7 litres of capacity and the ability to prepare larger portions

The spacious 7-litre basket allows you to prepare meals for several people in one use. According to the manufacturer's data, the appliance can hold, among other things, a whole 1 kg chicken, 800 g of chips or 24 chicken wings. The set also includes a rack for two-layer cooking, making it possible to make better use of the space inside the basket.

Convenient operation and control of food preparation

The device is equipped with a 7-inch viewing window, allowing you to observe the cooking process without having to pull out the basket. A temperature range from 40°C to 230°C and 10 cooking functions make it possible to adjust the settings to different types of dishes. The air fryer also offers 25 preset recipes.

Integration with the Xiaomi Home app and support for smart functions

The Xiaomi Mijia Smart Steam Air Fryer 7L works with the Xiaomi Home app and supports Xiaomi HyperOS Connect. The user can use additional functions available in the app, including access to more than 100 online recipes. Connection with the Xiaomi ecosystem makes it easier to manage the device and use its capabilities.

Easier cleaning and maintenance of the device

The air fryer is equipped with a one-button drying and odour removal function. The drying function helps reduce moisture inside the device, while the odour removal mode helps reduce the mixing of aromas from different dishes. The closed steam system reduces the need for an additional condensate container.

Specification

Parameter	Details
Model	MAF-ST701
Product number	BHR08U4EU
Capacity	7 l
Rated power	1850 W
Rated voltage	220-240 V~
Rated frequency	50-60 Hz
Water tank capacity	1.5 l
Steam temperature	Up to 130°C
Temperature range	40-230°C
Cooking functions	10 cooking functions, 25 preset recipes
Connectivity	Xiaomi Home, Xiaomi HyperOS Connect
Dimensions	404 × 303 × 366.5 mm
Net weight	7.8 kg
Contents of the set	Air fryer, rack, basket, user manual, warranty card
