Information:

Xiaomi Mijia Vacuum Cleaner 4 C EU is a lightweight, cordless upright vacuum cleaner for everyday cleaning of dust, crumbs and pet hair from various surfaces. It offers suction power of up to 170 AW, vacuum pressure of up to 20 kPa and a motor running at up to 110 000 rpm, supported by cyclonic technology to maintain high efficiency. The battery provides up to 45 minutes of operation in Eco mode, up to 25 minutes in Standard and up to 10 minutes in Turbo. The illuminated LED brush makes it easier to spot dirt, the 2-in-1 attachment helps clean gaps and furniture, while 99,97% filtration and the Anti-tangle system improve ease of use and maintenance.

Full product description

Xiaomi Mijia Vacuum Cleaner 4 C EU - efficient cleaning in a lightweight design

Xiaomi Mijia Vacuum Cleaner 4 C EU is a cordless upright vacuum cleaner designed for the daily removal of dust, crumbs and pet hair from various surfaces. The device uses a motor with a speed of up to 110,000 rpm and cyclonic technology, which helps maintain suction efficiency during cleaning.

170 AW suction power and cyclonic technology

The Xiaomi Mijia Vacuum Cleaner 4 C EU model offers suction power of up to 170 AW and a vacuum level reaching 20 kPa. These parameters enable effective collection of everyday dirt such as dust, crumbs and hair. The cyclonic system supports the separation of dirt from the air, helping the device to operate efficiently.

Long runtime and convenient whole-home cleaning

The vacuum cleaner is equipped with a battery that allows cleaning without the need to connect a power cable. Depending on the selected operating mode, the device can run for up to around 45 minutes with the electric brush in Eco mode. Standard mode allows operation for up to around 25 minutes, while Turbo mode provides intensive cleaning for around 10 minutes.

Illuminated brush for easier dirt detection

The main electric brush has been fitted with white LED light, which helps spot dust and fine dirt in hard-to-reach places, including under furniture. The brush design allows the device to be moved comfortably across different types of flooring.

2-in-1 attachment for cleaning different surfaces

Xiaomi Mijia Vacuum Cleaner 4 C EU has been equipped with a practical 2-in-1 crevice tool, which makes it possible to clean hard-to-reach spaces and delicate surfaces. Thanks to the ability to quickly change the configuration, the device is suitable for cleaning furniture, sofas, gaps and other furnishings.

99.97% filtration and easy operation

The filtration system of the Xiaomi Mijia Vacuum Cleaner 4 C EU helps trap fine particles during cleaning. According to the manufacturer, filtration efficiency reaches 99.97%. The device design allows convenient use both as an upright vacuum cleaner and as a handheld unit.

Design that reduces hair tangling

The brush of the Xiaomi Mijia Vacuum Cleaner 4 C EU uses an Anti-tangle design, which helps reduce hair wrapping during cleaning. This solution makes everyday brush maintenance more convenient, especially in homes with pets.
