Information:

Xiaomi Mijia Vacuum Cleaner 4 Pro EU is a cordless upright vacuum cleaner for everyday cleaning of the home and flat. It offers 280 AW suction power, a motor running at up to 150 000 rpm and 27 000 Pa suction, so it effectively removes dust, crumbs, hair and other dirt from floors, carpets, furniture and hard-to-reach places. Auto mode automatically adjusts the power, and the replaceable battery provides up to 90 minutes of operation. The brush with 180° blue illumination makes dirt easier to spot, while Dual Anti-Tangle technology reduces hair tangling. Multi-stage filtration with 99.99% efficiency, a clear display and a 1+6 accessory set increase convenience and versatility.

Full product description

Xiaomi Mijia Vacuum Cleaner 4 Pro EU - cordless cleaning with high suction power

Xiaomi Mijia Vacuum Cleaner 4 Pro EU is a cordless upright vacuum cleaner designed for everyday home cleaning. The device combines high suction power, a convenient design and a set of functions that help effectively remove dust and dirt from various surfaces. Thanks to a motor with a speed of up to 150,000 rpm and 280 AW suction power, the vacuum cleaner enables thorough cleaning of floors, carpets, furniture and hard-to-reach places. The device's design has been developed to ensure comfort during regular use and make it easier to clean the entire home.

Mijia Vacuum Cleaner 4 Pro

Product images may differ slightly from actual product.

High-speed motor and 280 AW suction power

At the heart of the Xiaomi Mijia Vacuum Cleaner 4 Pro EU is a motor reaching speeds of up to 150,000 rpm. According to the manufacturer, the device offers 280 AW suction power and a maximum vacuum of 27,000 Pa. These specifications make it possible to effectively remove dust, crumbs, hair and other everyday dirt found on various surfaces. The stable operation of the suction system means the vacuum cleaner can be used both for quick cleaning and for more thorough cleaning of larger areas.

Automatic power adjustment in Auto mode

Xiaomi Mijia Vacuum Cleaner 4 Pro EU is equipped with Auto mode, which enables automatic adjustment of suction power during cleaning. The device can adapt its operating parameters to current conditions, helping the user remove dirt more conveniently without the need to change settings manually. This solution allows you to focus on cleaning rather than constantly switching operating modes. As a result, the vacuum cleaner can be a convenient solution for everyday use in different rooms.

Long runtime and replaceable lithium-ion battery

The Xiaomi Mijia Vacuum Cleaner 4 Pro EU uses a replaceable lithium-ion battery, which allows convenient use of the device during everyday household tasks. According to the manufacturer, the maximum runtime can be up to 90 minutes, depending on the selected mode and usage conditions. Thanks to the cordless design, the user can move freely between rooms without being limited by a power cable. The removable battery also makes the device easier to handle and store.

Brush with 180° blue illumination and hair-tangle reduction

The main brush of the Xiaomi Mijia Vacuum Cleaner 4 Pro EU has been designed for convenient cleaning of different types of floors. The blue light with a wide 180° angle helps reveal fine dirt that may be less visible in standard room lighting. The brush also uses Dual Anti-Tangle technology, which reduces hair and fibre wrapping around the roller during operation. This makes it easier for the user to keep the working parts clean and maintain comfort during everyday cleaning.

Filtration system that traps fine particles

Xiaomi Mijia Vacuum Cleaner 4 Pro EU is equipped with a multi-stage filtration system which, according to the manufacturer, achieves a filtration efficiency of 99.99%. This solution helps reduce the amount of fine particles returning to the air during cleaning. The design of the filtration system supports everyday use of the device in homes where regular removal of dust and dirt is particularly important. The filter has been designed for convenient use and to maintain the vacuum cleaner's proper performance.

Display for monitoring operating parameters

On the body of the Xiaomi Mijia Vacuum Cleaner 4 Pro EU there is a clear display that helps monitor basic information during use. It allows the user to check the device's operating status more conveniently and use the vacuum cleaner's available functions. The ergonomic handle design and arrangement of the controls make the device intuitive to operate during everyday tasks. The vacuum cleaner has been designed for convenient use both during quick cleaning and larger tidying jobs.

1+6 accessory set for various applications

Xiaomi Mijia Vacuum Cleaner 4 Pro EU comes with a 1+6 accessory set that expands the device's cleaning capabilities. The additional elements allow the vacuum cleaner to be adapted to various tasks around the home, such as cleaning floors, furniture, crevices or hard-to-reach spaces. The interchangeable attachments help you reach places that require more thorough cleaning more easily. Thanks to its wide range of uses, one device can support many everyday cleaning tasks.

The product is a proposition for:

Xiaomi Mijia Vacuum Cleaner 4 Pro EU is suitable as a cordless vacuum cleaner for everyday cleaning of flats and houses. The device combines high suction power, long runtime and a set of functions that make it easier to keep different rooms clean.

- people looking for a cordless vacuum cleaner for everyday cleaning,
- users who want to use one device for different surfaces,
- people who value convenient operation and cordless use,

- users who need a device with a set of interchangeable accessories,
- people who want to remove dust, hair and everyday dirt more easily.
