Manufacturer: MOMCOZY

Referention number: DNXXGKQJRMNMLJ

Information:

Momcozy Go As You Grow™ Maternity Belly Band is a maternity support band designed for greater comfort with a growing bump, including twin or multiple pregnancies. It combines lower belly support with wide, padded shoulder straps to distribute weight more evenly and relieve the lower back and pelvis. The soft, breathable material increases wearing comfort, while anti-slip elements help maintain a stable fit during movement. The adjustable design allows the level of support to be adapted to a changing figure and everyday activities.

Full product description

Support for a Growing Belly

Momcozy Go As You Grow™ Maternity Belly Band is a maternity belt designed for women who need more extensive abdominal support during pregnancy. The design combines a lower support band with a system of wide shoulder straps, so the weight of the belly can be distributed over a larger area of the body. This solution is particularly intended for twin and multiple pregnancies, a rapidly growing belly, and situations in which its greater weight increases the strain felt during everyday activities.

Ergonomiczny krój typu racerback o zoptymalizowanym rozkładzie ciężaru

- łatwiejszy do noszenia na co dzień, zapewnia bardziej równomierny rozkład ciężaru
- elastyczne dopasowanie na plecach gwarantuje stabilność podczas ruchu

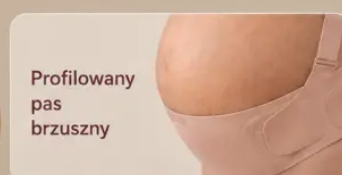

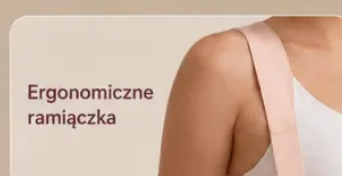

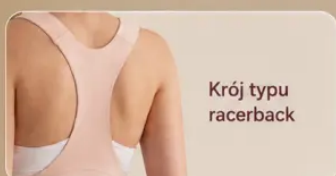

Wide Shoulder Straps

Ergonomic, wide and padded shoulder straps follow the natural curves of the shoulders and help distribute the weight more evenly, rather than concentrating pressure in one place. Combining belly support with the upper part of the design reduces downward load and helps you function more comfortably while standing, walking and carrying out everyday tasks.

Zintegrowane strefy. Otulające wsparcie

Rozkłada ciężar na ramiona, brzuch i plecy, zapewniając zrównoważone ergonomiczne wsparcie

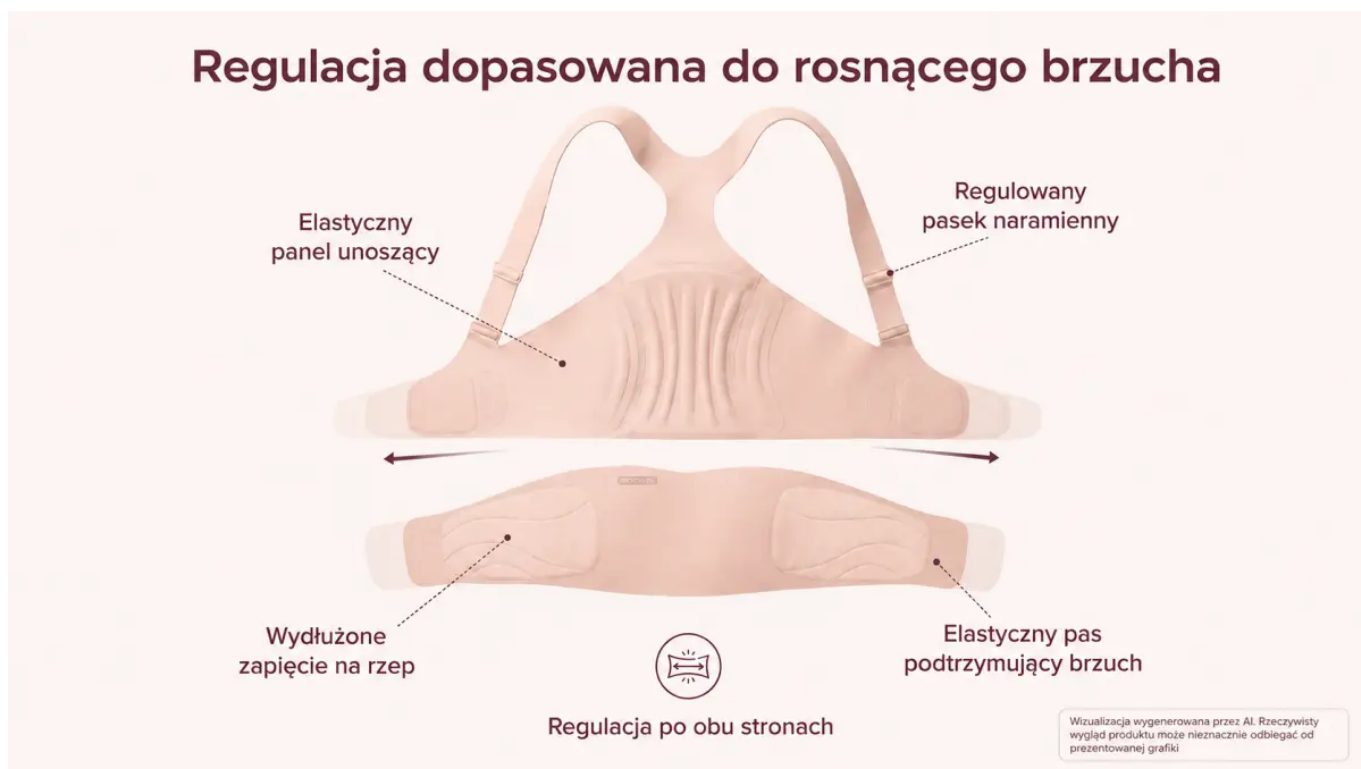

Everyday Comfort

The band has been designed for use when extra support is needed most during the day. The soft material feels pleasant against sensitive skin, and airflow channels help dissipate heat and reduce friction. Anti-slip elements also help keep the fit in place during movement, making the band easier to use during typical home and work activities.

Adjustable Support

The Momcozy system consists of elements that cover the belly, back and shoulders, allowing the level of support to be adjusted to a changing figure. The lower panel is placed under the belly, then fastened on both sides and the shoulder straps are adjusted. This design makes it possible to adapt the position of the band as the belly grows and allows support to be used at different stages of pregnancy.

Back and Pelvic Support

The band design helps distribute the weight of the belly more evenly and stabilise the lower back. Gentle lifting of the belly may help reduce the feeling of tension in the lower back and pelvic area during everyday activities. The extensive support system has been designed especially for larger and heavier bellies, including twin or multiple pregnancies.

Opatentowana konstrukcja oparcia. Zaprojektowana z myślą o odciążeniu

Konstrukcja Ergonest Support Structure 2.0 oraz wzmocnione, dwustronne usztywnienia zapewniają:

równomierny rozkład nacisku

odciążenie dolnej części pleców

mocne wsparcie

Choosing the Right Size

The band size should be selected based on the circumference measured around the fullest part of the belly, not on pre-pregnancy clothing size. The manufacturer offers L Pro for a circumference of 106–117 cm, XL Pro for 118–128 cm, 2XL Pro for 129–138 cm and 3XL Pro for 139–149 cm. If your measurement falls between two sizes, the manufacturer recommends choosing the larger option, which leaves more room as the belly grows.

Znajdź idealne dopasowanie

Jak wybrać właściwy rozmiar?

1

Zmierz obwód w najszerszym miejscu ciążowego brzucha.

2

Nie kieruj się rozmiarem spodni.

3

Jeśli jesteś między rozmiarami, wybierz większy.

Rozmiar	Obwód brzucha ciążowego
L-pro	42–46 cal / 106–117 cm
XL-pro	47–50 cal / 118–128 cm
2XL-pro	51–54 cal / 129–138 cm
3XL-pro	55–59 cal / 139–149 cm

The product is a suggestion for:

Momcozy Go As You Grow™ Maternity Belly Band can be used as additional support during selected activities throughout the day, especially when there is greater strain associated with a growing belly.

- women with twin or multiple pregnancies,
- women with a larger or rapidly growing belly,
- women feeling greater strain in the lower back and pelvic area,

- people spending a lot of time standing,
- women needing extra support while walking and carrying out everyday activities,
- people looking for a band with belly support combined with wide shoulder straps.

Ulgę w najbardziej wymagających momentach
