Information:

Extralink Home R-706 is a cordless 2-in-1 vacuum cleaner designed for everyday cleaning of floors, furniture, stairs and hard-to-reach places. With upright and handheld functions, it offers great ease of use, while the 150 W motor and 18,5 V battery enable effective removal of dust, crumbs and hair without the need to plug into a socket. Three suction levels of 6/8/10 kPa let you adjust the power to the type of dirt, and the 2000 mAh battery provides up to 35 minutes of operation. Quiet operation at up to 72 dB increases cleaning comfort.

Full product description

2-in-1 Vacuum Cleaner R-706

Extralink Home R-706 is a cordless 2-in-1 upright vacuum cleaner designed for everyday cleaning of household surfaces. The cord-free design allows free movement between rooms, and the option of using the device as either an upright or handheld vacuum cleaner helps remove dirt from floors, furniture, stairs and hard-to-reach places.

Zasilacz VDE
Wejście: 0,5 A • Wyjście: 18,5 V DC / 0,5 A

150 W Motor

The 150 W DC motor supports efficient collection of dust, crumbs, hair and other everyday dirt. The 18.5 V battery power means the device does not need to be plugged into a socket during operation, which increases the convenience of vacuuming different parts of the home.

Czas pracy

Niski: 35 min • Średni: 18 min • Wysoki: 10 min

Three suction levels

Three suction power levels allow the vacuum cleaner to be adjusted to the type of surface and the amount of dirt. The low mode offers 6 kPa of suction power, the medium mode 8 kPa, and the high mode 10 kPa. This makes it possible to choose gentler operation for light cleaning or increase the power in areas requiring more intensive vacuuming.

2000 mAh battery

Extralink Home R-706 is powered by a 2000 mAh 18650-type lithium-ion battery. The cordless design makes it easier to vacuum areas far from electrical sockets, as well as to carry the device conveniently between floors and rooms.

Up to 35 minutes of operation

The operating time of the device depends on the selected suction power level. In low mode, the vacuum cleaner can operate for up to 35 minutes, in medium mode for up to 18 minutes, and in high mode for up to 10 minutes. This allows the performance and operating time to be matched to the scope of the cleaning tasks.

Noise level up to 72 dB

The maximum noise level of 72 dB helps reduce noise nuisance during everyday cleaning. The combination of 2-in-1 functionality, three suction settings and battery power means the Extralink Home R-706 can be used both for regular floor vacuuming and for quickly removing individual bits of dirt.
