Full product description

HUAWEI EG8141A5 APC

HUAWEI EG8141A5 APC Optical Network Terminal is equipped with GPON interface and built-in router with 1 **Gigabit Ethernet port**, 3 **Fast Ethernet ports**, RJ-11 connector for POTS and **WiFi 2.4 GHz**. It also has a USB port. Intelligent ONT EchoLife EG8141A5 is a great solution for home or small business, providing a set of services at a very good price.

Simple solutions EchoLife EG8141A5 from Huawei

ONT/ONU EG8141A5 is a budget proposition that offers all the services needed today. It allows to get stable access to broadband Internet, providing fast data transfers, HD video streaming and VoIP. Intuitive configuration allows to use the device for **triple play services - Internet, TV and telephone**. Rich management options compatible with current standards allow the ISP to adapt the device to the specific network.

Optimum technology for most needs

By using **IEEE 802.11 b/g/n 2x2 MIMO in Huawei EG8141A5 ONT**, the wireless transmission capacity can be up to 300 Mbps, which meets most of the actual requirements of users. The range becomes optimal with Smart WiFi. The device is economical in terms of power consumption, maximum 7.5 watts.
