Full product description

Brushing your teeth and cleaning your face

- 5 modes
- Contact charging
- Smart memory
- Battery life 30 days
- High frequency sound vibration
- Waterproof IPX7

Infly P20C toothbrush includes 5 modes

Gentle mode for tartar removal. Also, the toothbrush includes cleaning, whitening, polishing and massage modes for facial cleansing.

Ideal for home use and travel

A full charge can last up to **120 minutes**. The travel mode is further designed to prevent accidental touch and turn on and loss of power.

Triple protection ensures battery safety

The built-in battery management chip can monitor the battery's state of charge, protecting its safety and increasing the life of the toothbrush.

A smart toothbrush with high frequency sonic vibration

High-frequency sonic vibrations can nurture sensitive gums and clean every nook and cranny of your mouth, allowing you to remove food debris and plaque.

A toothbrush that can wash your face

Change the brush tip to a **facial cleansing** brush and massage your face together

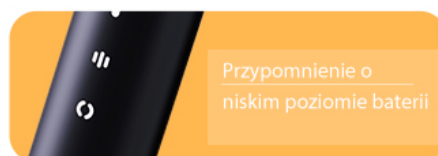

Waterproof IPX7

IPX7 waterproof for the main body and IPX5 for the charging base. But don't soak the body in water for a long time, so as not to affect the life of the body. When charging, please make sure the brush body and base are dry.

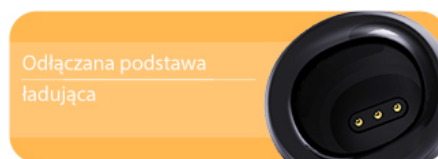

More thoughtful design

- Low battery reminder
- Detachable charging base
- Silicone concave button
