Full product description

4 modes and 1 button

The **infly T03S** toothbrush includes 4 personalized modes. **Standard mode** is designed for daily tooth brushing. **Gentle** - for sensitive gums and those using the toothbrush for the first time. There is a separate **whitening mode** for whitening front teeth and a **3-minute mode for polishing teeth**. They are tailored to different conditions of teeth and gums, and the one-button control is easy to use.

Up to 42,000 rpm

The main cleaning effect of the **iinfly T03S** toothbrush is due to a motor that generates high-frequency bristle vibrations of **up to 42,000 rpm**. This helps to not only gently but also very thoroughly clean the mouth without damaging the gums and tooth enamel.

Smart reminder

The **iinfly T03S toothbrush** reminds you to move on to other areas of your mouth and encourages good brushing habits.

Unique Dupont bristles

DuPont 's soft, rounded bristles gently interact with enamel and gums to effectively remove plaque, providing a thorough and gentle cleaning.

Long operating time without charging

In just **7 hours**, you can fully charge the battery and enjoy brushing twice a day for 2 minutes. With this frequency of brushing, the **inFly T03S** toothbrush has enough battery for 25 days.

Waterproof IPX7

The **infly T03S** toothbrush is waterproof according to the **IPX7** standard. A brief splash of water on the toothbrush will not affect its performance - you can clean your teeth in the shower, and rinse the device after cleaning.
