Full product description

Maglev's silent sonic vibration technology

Infly T04B is a children's toothbrush with cleaning efficiency thanks to its 42,000 RPM and IPX7 protection. **The infly T04B** toothbrush offers 3 modes: cleaning, polishing and whitening.

Advanced technology

The indicator light starts flashing quickly when children grasp the toothbrush too tightly until the pressure does not return to normal levels, allowing you to take care of children's teeth at any time.

3 cleaning modes

- Cleaning - especially for baby's sensitive gums
- Polishing - to prevent gum disease and maintain oral health
- Whitening - removing plaque in all nooks and crannies

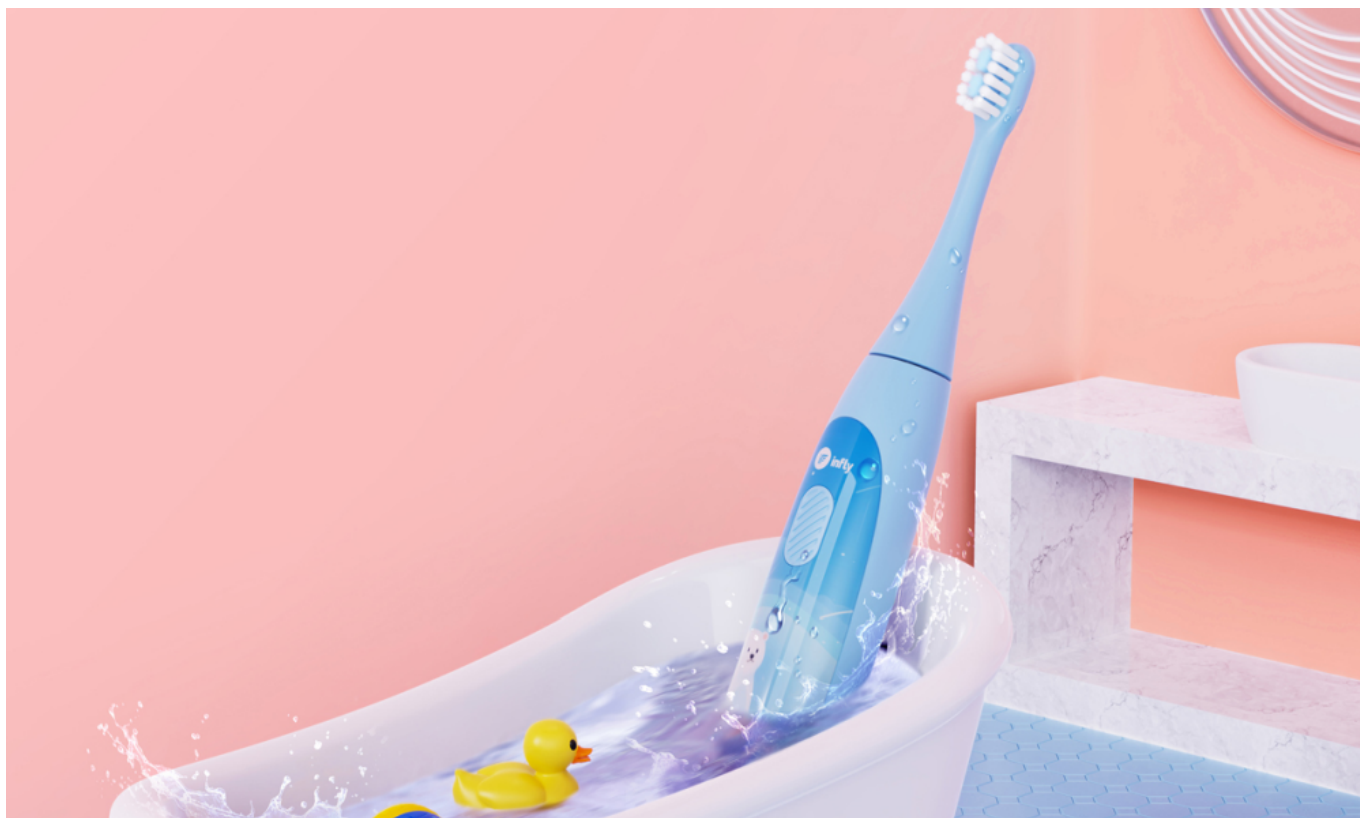

Unique DuPont bristles

DuPont 's soft, rounded **bristles** gently interact with enamel and gums to effectively remove plaque, providing a thorough and gentle cleaning.

Waterproof IPX7

The entire body is **waterproof according to the IPX7 standard**, which gives you a full sense of security.

Smart reminder

The **infly T04B toothbrush** reminds you to move on to other areas of your mouth and encourages good brushing habits.

Safe charging

The internal battery monitors charging status and **automatically** shuts down when fully charged.

Long-lasting battery life

Brushing your teeth twice a day for 2 minutes at a time, the battery lasts **about 60 days** on a full charge.
