Full product description

Excellent mopping robot with precise spray pattern

When there is a spill, **the Braava jet m6 robot** is always on call - ready to go to the site and take care of the matter. **Simply issue a command to Alexa or Google Assistant**, and it will head out and get to work. Always learning your home and cleaning habits, it can offer customized schedules that fit your life - even suggesting extra cleaning during pollen season. With its **precision sprayer**, it removes dirt and sticky stains without spraying furniture, carpets or walls - all without any effort on your part, making mop cleaning a thing of the past.

Key features of iRobot Braava jet m6

- Thorough mopping
- Mops when, where and how you want
- Mops multiple rooms
- Wet and dry work
- Precision washer
- Automatic cooperation with Roomba robots
- Collaboration with Google Home and Amazon Alexa
- Creates maps and navigates with precision
- Smart Home and iRobot Home app
- No-access zones
- Smart navigation
- Charging and resuming cleaning

Best mopping robot

The Braava jet m6 robot mops as you do. You can tell it where and when to clean, and the precise spray pattern helps it deal with sticky dirt and kitchen grease.

A perfect fit for your life

Ideal for multiple rooms and larger spaces. Moves around objects and under furniture. Cleans hard floors, including hardwood, tile and stone.

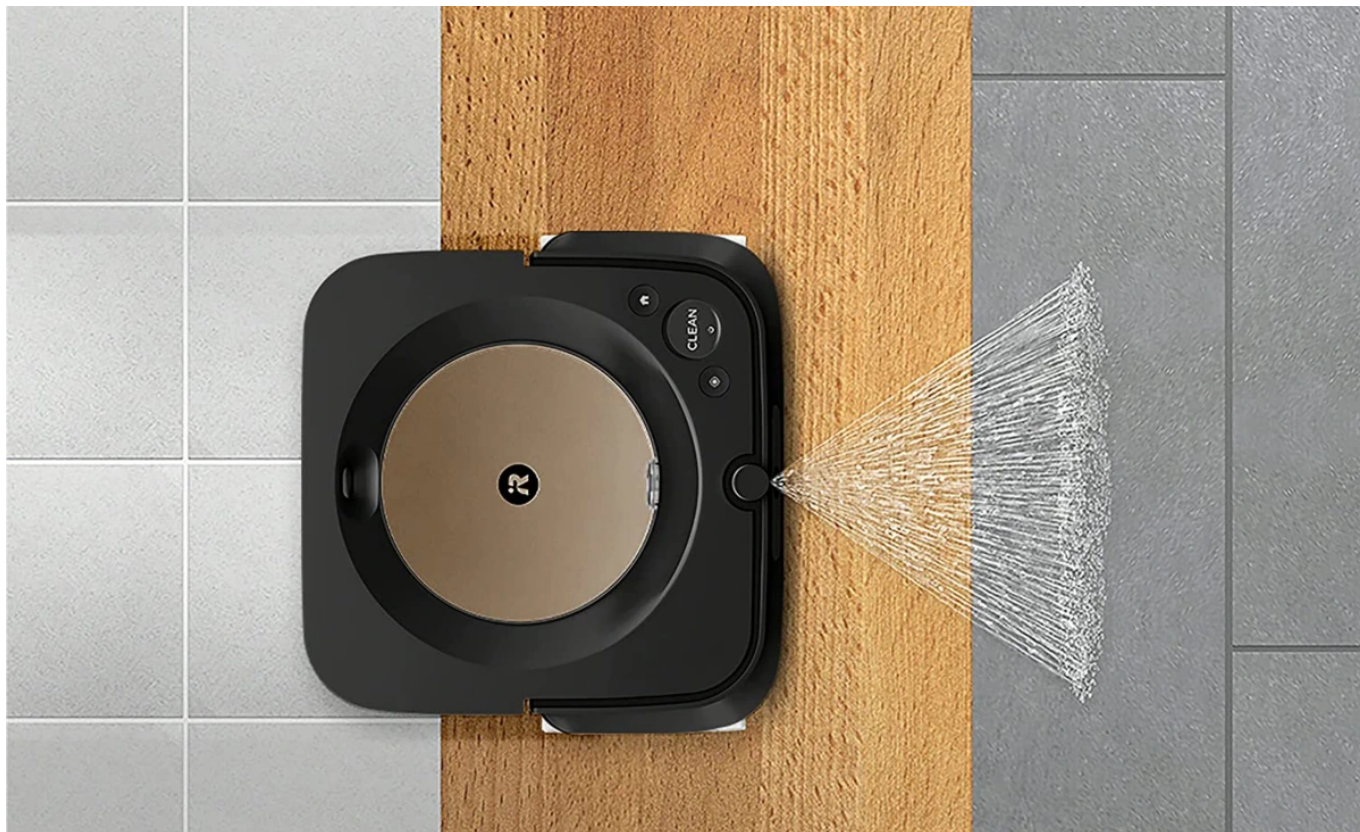

Navigation vSLAM

With state-of-the-art vSLAM navigation, the Braava jet m6 vacuum robot maps your home to navigate in neat, efficient rows, leaving clean floors in its wake.

Powered by iRobot OS

The iRobot OS raises the bar, providing intuitive cleaning tailored to your needs and preferences.

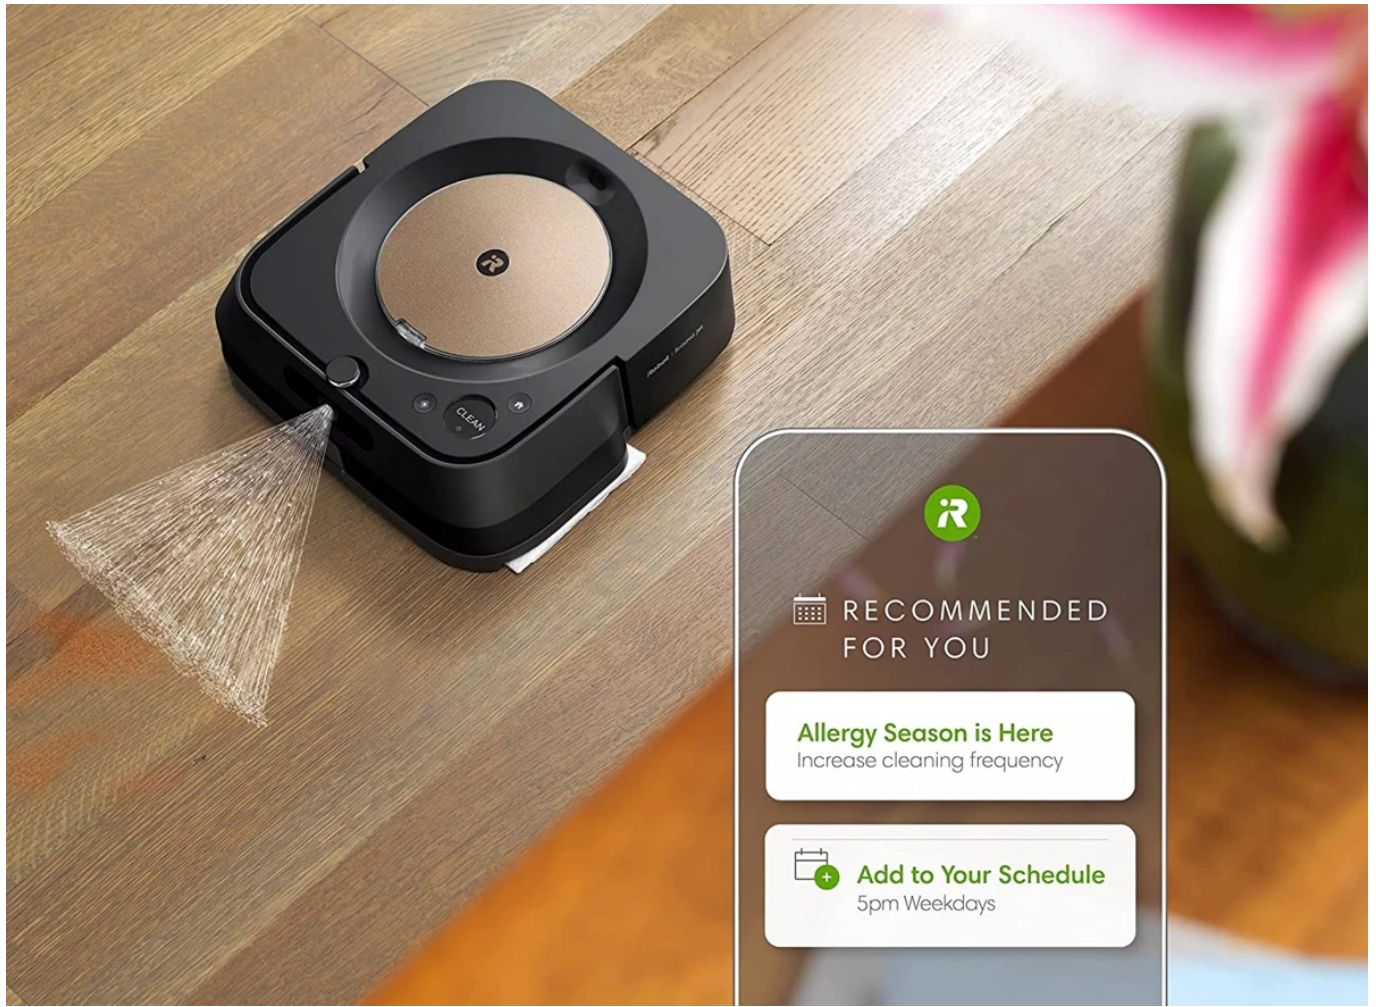

Mops up the mess in a few moments

Spilled coffee on the floor? Traces from mud? The M6 can target specific areas in rooms, such as in front of a couch or under a table.

Exceptional Cleanliness for You

Learns based on your cleaning habits to offer customized schedules. Suggests extra cleaning when pollen counts are high or during pet lynching season.

Full control over cleanliness

With Imprint Smart Mapping, your robot distinguishes between your kitchen and living room, so you can decide where and when it should clean.

Avoiding objects

You can tell your robot to stay away from certain areas or objects with customizable no-go zones.
