Full product description

Efficient vacuuming

The **iRobot Roomba Combo** removes dust and dirt from hard floors and carpets with a V-shaped brush and high suction power. Edge brushes pick up dirt from walls and corners. Customize cleaning performance with two vacuuming modes according to your cleaning needs.

Key features of the Roomba Combo

- Simultaneous vacuuming and mopping
- Line cleaning
- Smart Home and iRobot Home app
- Cleaning in corners and around edges
- Smart navigation
- Voice communication
- Automatic return to station and charging
- Real-time obstacle detection and recognition

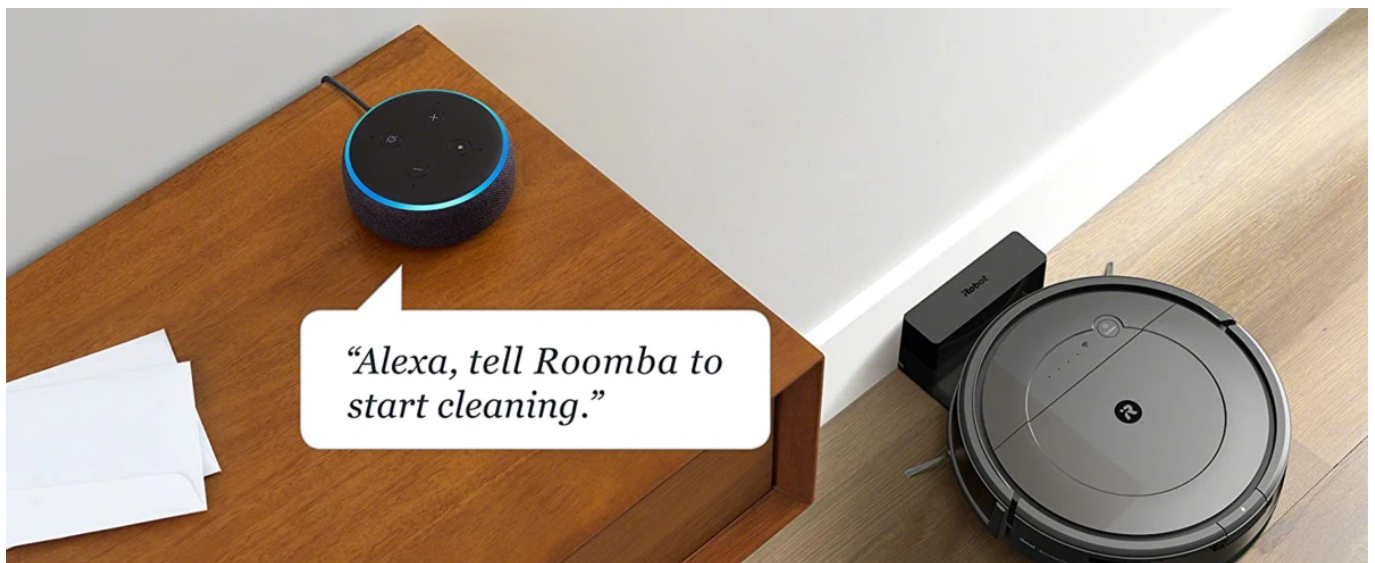

Clean and fresh floors every day

With **three wiping modes**, you can tailor the cleaning to your needs. **An electronic pump** controls the water supply and keeps the cloth evenly moist during cleaning.

Tailors cleaning to your lifestyle

With **Robot Genius**, the robot learns about your cleaning habits and suggests schedules to meet your requirements. It also recommends actions you may not have even thought of, such as extra cleaning during allergy season.

Targeted and logical navigation

The intelligent linear navigation system uses sensing floor sensors to clean floors in a targeted and logical manner.
