Full product description

Jirous GentleBOX JR-300

GentleBOX JR-300 is the ideal electronics installation box for the parabolic antenna series JRC-xx. GentleBOX is an external box for AP, RouterBOARD and other electronic devices, which contains a unique system of latches and holes for their easy installation. Easy installation without drilling - 1 flat and 2 crosshead screwdrivers (PH1 and PH2) are required for complete installation. The package includes a cable gland, which is secured against rotation by means of specially shaped mounting embossings. The GentleBOX is pre-prepared for simplified assembly of RB411 and Rocket M2 and M5.
