Full product description

FiberHome 12J Singlemode Optical Conduit Cable - G.652D Fiber, 1500N

Fiberhome Duct Optical Cable is a fiber optic cable designed for **duct** applications. Its construction consists of **12 G.652D fibers** in one loose tube and **5 fillers** twisted around a centrally located **FRP rod** as a reinforcement element. Cable is covered with **HDPE sheath**.

Key features

- Fiber type - single-mode G.652D
- Number of fibers - 12 fibers
- 1 loose tube + 5 fillers
- Outer shell - HDPE (high density polyethylene)
- FRP (fiber reinforced plastic) reinforcing bar
- Pulling force - 1500 N
- Cable diameter - 9.2 mm
- Application - to the sewerage system
