Full product description

Fiber optic cable 48F 6T12F G652D for sewage applications

Extralink Duct Optical Cable is a fiber optic cable designed for sewage applications. **Its construction consists of 48 G.652D fibers** placed in loose tubes and two fillers, twisted around a centrally located FRP rod, which is a strengthening element. **The cable is covered with HDPE coating.**

Features

- Fibre G.652D
- 4 loose tubes
- 2 fillers
- HDPE outer coating
- FRP Reinforcement Bar
- Tensile strength 1.5 kN
- Diameter 9.2 mm
