Full product description

Fiber optic cable for microducting 144F 12T12F, G652D, 8.8 mm

Extralink MICROCABLE is a fiber optic cable, it is constructed using 12 tubes with 12 G.652D fibers, the cable is designed for microducting. **Its construction consists of 12 tubes twisted around a central FRP rod as a reinforcement element.** The corrugated outer sheath makes it easy to place the cable in a sewerage pipe.

Key features

- Fibre G.652D
- 12 tubes twisted around the central FRP bar
- HDPE outer coating
- Diameter 5.4 mm
