Full product description

Fiber optic overhead cable 4F S-NOTKSP

The **4F S-NOTKSP** overhead fiber optic cable is a fiber optic cable designed primarily **for overhead installations** for use **over** short distances. It is constructed using **4 G.657A1 fibers**, directly in the sheath. **Two aramid yarn FRP rods** embedded in outer jacket are reinforcing element which provides required cable tensile strength.

The supporting element is a **steel rod**. The external **LSZH sheath** which protects the cable against external aggressions is UV resistant and **halogen free**.

Key features

- G.657A1 fibre
- Tensile strength 600 N
- Outer sheath LSZH
- Two FRP reinforcing bars
- Diameter ~ 5.2 mm (± 5%) * (2.0 mm * 3.0 mm (± 5%))
- Flat cable
