Full product description

EXTRALINK Storage Rack Black - the perfect storage solution.

EXTRALINK Metal Storage Rack 180x90x40 is a **practical and versatile solution** to help organize your space. With **five sturdy MDF shelves**, this storage rack is made to hold even heavy items for order and convenience. Discover how simple it is to gain more storage space without compromising on durability.

Solid MDF shelves

EXTRALINK storage rack is equipped with **5 shelves made of durable MDF**, which can easily hold a variety of items. Each shelf has a **maximum load capacity of up to 175 kg**, which makes the total load capacity of the rack up **to 875 kg**. This makes the rack ideal for both a warehouse and a garage or workshop, where you need a secure and sturdy storage surface.

Stable and durable metal construction

The rack frame is made of **galvanized metal profiles**, which provide stability and resistance to mechanical damage. The design with rounded edges makes the rack safe to use, without the risk of injury. **The metal frame** guarantees longevity and robustness, even in harsh conditions of use.

Easy installation without screws

The assembly of the EXTRALINK storage rack is extremely simple and requires no screws or specialized tools. Thanks to the **"push-in" method**, it takes little time to assemble the rack, and its configuration is extremely flexible. You can freely adjust the height of the shelves, which allows you to perfectly adapt the rack to your needs.

Universal design and versatile application

EXTRALINK metal storage rack in **black** looks elegant and fits into a variety of spaces. It is an excellent solution not only for the warehouse, but also for the basement, pantry, store or workshop. The versatility of its use means that this rack can serve as a practical and aesthetically pleasing piece of furniture in any space.
