KINGSLIM

Manufacturer: KINGSLIM

Referention number: DNXXGNNONIRMMOI

Information:

Kingslim E2 Pro is a dual-channel dash camera recording the front in 2K quality and the rear in 1080P, providing a clear image and more comprehensive protection on the road. The wide viewing angle and waterproof rear camera increase reliability in various conditions. The G-sensor automatically protects recordings in the event of a collision or impact, while the built-in 2.4 GHz WiFi and mobile app enable convenient viewing, management and downloading of videos. Support for cards up to 256 GB allows for extended recording without the need to delete data frequently.

Full product description

Kingslim E2 PRO DASH CAMERA - Secure every journey with 2K quality

Kingslim E2 Pro Dash Camera is the perfect solution for drivers who want to record every trip in high 2K resolution. With dual-channel recording from both the front and rear, the device ensures complete safety on the road. The camera combines cutting-edge technology with simple operation, making it an ideal choice for any driver.

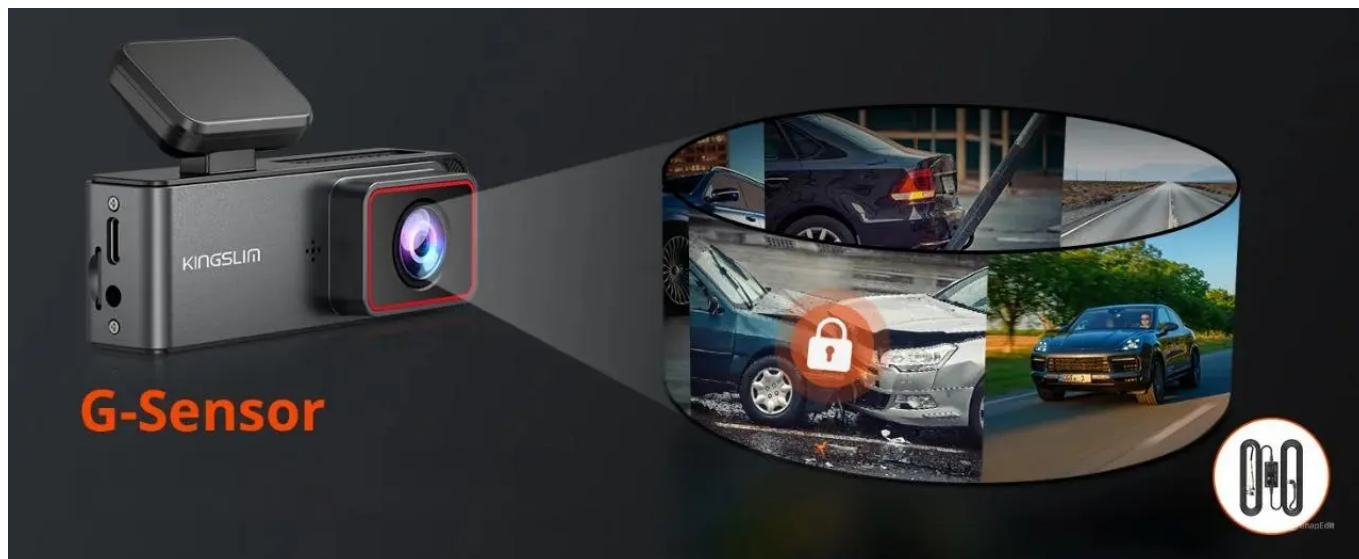

Dual-channel recording in 2K and 1080P

The Kingslim E2 Pro offers **2K (25 FPS)** front and **1080P (25 FPS)** rear recording for clear, detailed footage. Thanks to the camera's wide viewing angle and high resolution, you can record all important incidents on the road from both sides of the vehicle. In addition, the rear camera is waterproof, ensuring its durability in various weather conditions.

Automatic recording after a collision

The camera **is equipped with a G-sensor** that automatically records video when a collision or sudden shock is detected. This is ideal for making sure that key moments are safely saved, even when you're not paying attention. With this feature, you don't have to worry about losing important recordings.

Easy control via mobile app and WiFi

With built-in **2.4GHz WiFi**, the Kingslim E2 Pro camera allows you to remotely view and manage your recordings via a mobile app. You can monitor in real time what the camera is recording, and easily download files to your phone, making it easy to share recordings when needed.

Support for large memory cards

Kingslim E2 Pro supports memory cards of **up to 256GB**, allowing you to store large amounts of recordings without having to delete them frequently. Recording in TS format requires the use of a dedicated player, such as Kingslim Player or VLC Player, which ensures better quality and stability of recordings.
