Information:

Kingsmith Treadmill X23 is an electric treadmill for home training, ideal for people who want to exercise regardless of the weather and save time. It offers a speed of up to 16 km/h, a powerful 1470 W brushless motor and a cushioning system that increases comfort and helps protect the joints. The sturdy metal construction supports a load of up to 136 kg, ensuring stability and safety. Thanks to its foldable design and transport wheels, the treadmill is easy to store even in a small flat. The display and compatibility with the KS Fit app make it easy to monitor progress, while the space for a phone or tablet increases training convenience.

Full product description

Your training on your terms

The **Kingsmith Treadmill X23** electric **treadmill** is a well-thought-out device that allows you to exercise regularly regardless of the weather or gym hours. It's a solution for people who value efficiency, convenience and time savings. Combining **sturdy construction** with functional solutions, this model helps you implement your workout plans, offering a comfortable **workout at home** and **easy storage** after exercise.

Key advantages of Kingsmith X23 electric treadmill

- **Versatile workout at home:** Speed up to 16 km/h allows you to carry out varied workout plans, from walking to high-intensity running.
- **Protect joints and comfort:** The cushioning system helps reduce strain, contributing to a safer and more enjoyable workout.
- **Saves valuable space:** The folding function and transport wheels make the treadmill extremely practical for daily use.
- **Monitoring and motivation:** The display and integration with the KS Fit app help you track your results and keep your motivation high.
- **Durable construction:** A sturdy metal frame and a load capacity of up to 136 kg offer stability and a long life for the machine.

Kingsmith X23 electric treadmill is an excellent option for:

- Individuals who want to regularly train at home, regardless of the weather.
- Users with limited space, who appreciate equipment that is easy to store.
- Runners of all levels - from beginners to intermediate.
- Anyone looking for a way to improve fitness and well-being without leaving home.
- Individuals who like to track their progress and use workout apps.

Robust construction

The X23 is based on **a strong metal frame**, which contributes to high stability during exercise. The structure is designed for users weighing up to **136 kg**, which proves its durability. This allows you to focus on running with confidence and security, even during more intense training sessions.

Comfort and joint protection

The treadmill takes care of your comfort with **a cushioning system** that effectively helps reduce stress on joints and minimizes vibrations. The **132 x 50 cm** running surface offers enough space for free running and walking. Such a solution makes your workout more comfortable and allows you to have longer sessions without experiencing discomfort.

Powerful brushless motor

At the heart of the device is a **1470W brushless motor**. It allows you to smoothly adjust the speed and reach a maximum of **16 km/h**, making the treadmill a suitable choice for people at different levels of fitness. The device will adapt to your needs, supporting the efficiency of your workout, whether you plan a leisurely march or a dynamic run.

Folding and storage

One of the key features of the treadmill is its **easy folding system**. After your workout, you can quickly shrink it down to just 102.4 x 77.5 x 25.9 cm, making it easy to store even in small apartments. Built-in **transport wheels** make moving the unit simple and effortless.

Track your progress with the KS Fit app

The device features an easy-to-read display that reports key workout parameters, such as **time, distance, speed, calories burned and number of steps**. The treadmill is also compatible with **the KS Fit app**, which helps monitor progress and personalize training plans. A special

place for your phone or tablet allows you to conveniently use multimedia while exercising.
