Information:

Kingsmith Z3 Hybrid+ is a compact, foldable treadmill for home use, ideal for brisk walking and light running at speeds of up to 10 km/h. When folded, it is only 195 mm high, so it can easily be stored under a bed or in a wardrobe. The quiet, brushless 1.0 HP motor ensures smooth, energy-efficient operation, while the Child Lock and Auto Standby systems enhance safety. The wide 400 mm belt and EVA & PET cushioning improve comfort and reduce strain on the joints.

Full product description

Kingsmith Z3 Hybrid+ Treadmill - Your Home Partner for Activity!

Kingsmith Z3 Hybrid+ Treadmill is the ideal solution for people who value a healthy lifestyle and convenience. Thanks to the maximum speed of 10 km/h and its compact, foldable design, you can train at any time, regardless of space limitations. The durable construction and advanced technologies make this a treadmill suited to every form of workout, from brisk walking to light running.

Compact and foldable design

Kingsmith Z3 Hybrid+ is the ideal solution for small spaces – the treadmill folds easily, so after training it takes up a minimal amount of space. When folded, it is **only 195 mm high**, which allows convenient storage under a bed or in a wardrobe. It is the perfect option for people who want to keep things tidy and save space in their home.

Space Saver

Compact and Convenient

Quiet and efficient motor operation

Thanks to the **1.0 HP** brushless motor, the treadmill operates exceptionally quietly, allowing you to train without disturbing the peace at home. The motor ensures smooth operation even at the maximum speed of 10 km/h, ideal for both brisk walking and running. In addition, the motor is energy-efficient, which translates into lower power consumption during longer sessions.

Safety and user comfort

The treadmill has been equipped with a **Child Lock** system and an **Auto Standby** function, making it safe even in a home with children. Thanks to the 400 mm treadmill belt width, the user feels comfortable and stable during training. In addition, the EVA & PET cushioning effectively reduces pressure on the joints, minimising the risk of injury.

Nearly-Silent Brushless Motor
