Information:

Extralink Reya is an electronic baby monitor with HD video viewing on a large 5-inch LCD screen, providing constant supervision of your child day and night. The 355° horizontal and 95° vertical rotating camera lets you cover the entire room, while the IR night mode ensures a clear image after dark. Two-way communication allows you to soothe your little one with your voice, and the VOX cry sensor automatically activates the monitor. The device also offers a thermometer, temperature alerts, feeding reminders, 8 lullabies and wireless operation without Wi-Fi thanks to FHSS 2.4 GHz technology. The portable monitor with a 3500 mAh battery provides convenience and privacy.

Full product description

Full control and proximity

The Extralink Reya electronic nanny is designed to help you take care of your baby. It offers **HD video viewing** on a large 5-inch LCD screen. Thanks to **the rotating camera**, you get a view of the entire baby's room, and **the two-way communication** means you can not only hear your toddler, but also speak to him to soothe him. It's a solution that gives you a sense of closeness and control, no matter where you are in the house or apartment. All you need to have at hand is a **portable screen** with a built-in **3500 mAh** battery.

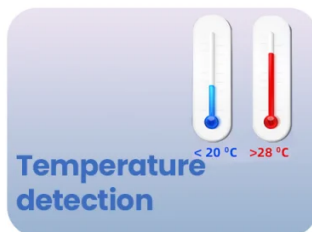

SMART MONITORING

Helps moms protect every moment of their
child's development

Key advantages of the Extralink Reya electronic nanny

- **A sense of security:** Constant day and night video viewing and a cry sensor mean you can respond immediately to your baby's needs.
- **Full picture:** The rotating camera allows you to monitor the entire room, eliminating blind spots and giving you full control.
- **Constant connectivity with your baby:** Two-way audio communication allows you to reassure your baby with your voice, even when you're in another room.
- **Support for daily care:** Features such as a thermometer, feeding reminders and built-in lullabies help you organize your day and keep your little one comfortable.
- **Simplicity and privacy:** A direct connection without Wi-Fi ensures easy installation and secure transmission, protecting your family's privacy.

The whole room in sight

The rotating camera head is one of the key features of this device. It allows you to remotely control the lens **355 degrees horizontally and 95 degrees vertically**. This makes it easy to point the camera at the crib, play mat or any other part of the room. You no longer have to wonder what's going on outside the frame - you always have the full picture of the situation on the monitor screen, which gives priceless peace of mind.

FEEDING REMINDER

Set a reminder to regularly feed and change your baby.

This will help the little one maintain a consistent daily rhythm, which promotes healthy

VOX SOUND ACTIVATION

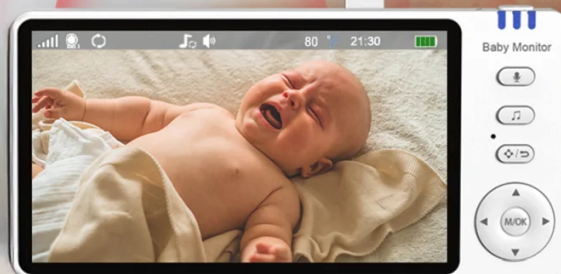

The screen automatically turns off to save power, but immediately turns on when the baby starts crying. The VOX function activates standby mode and reminds parents that the little one needs their attention.

Vigil also after dark

Baby care doesn't stop after the sun goes down. Built-in **infrared (IR) LEDs** automatically activate **night mode** when the room gets dark. This technology offers **clear, black-and-white images** even in total darkness, **without emitting visible light** that could disturb your little one's sleep. You can discreetly keep an eye on your baby throughout the night, keeping him safe.

TWO-WAY COMMUNICATION

Listen and talk to your baby from anywhere in the house – as if you were right next to each other.

Be close, even from afar

The **two-way communication** function turns the nanny into a home intercom. **The built-in microphone and speaker** allow you not only to hear every sound from your baby's room, but also to speak to him. Your reassuring voice can help your toddler fall asleep or feel safer when he wakes up. It's a simple tool that helps you build a bond and respond quickly to your baby's needs.

TEMPERATURE DETECTION + ALERT

Monitor the temperature in your baby's room
– the device will notify you when it's too warm or too cold.

Thermal comfort and restful sleep

The device takes care of optimal conditions in the child's room. The built-in **thermometer** constantly monitors the ambient temperature and displays its value on the monitor screen. What's more, you can set **alerts** to notify you when the room gets too cold or too warm. To make falling asleep easier, the nanny has preloaded **8 peaceful lullabies** that you can remotely turn on to soothe your little one.

8 LULLABIES

Built-in soothing melodies help your baby fall asleep faster and create a peaceful sleeping atmosphere.

Respond to your toddler's needs

The nanny is equipped with a **cry sensor (VOX)**, which automatically activates the screen and sound in the monitor as soon as it detects the baby's voice. The sensitivity of the microphone can be adjusted to match the environment. In addition, the **feeding reminder** function allows you to set up to 5 alarms to help you maintain a regular day and night rhythm, which is especially helpful in the first months of a baby's life.

355° rotation and infrared with automatic night mode switching

Full control and excellent visibility
at all times

Stable connection

The device uses **2.4GHz FHSS** technology for direct communication between the camera and the monitor. This means **you don't need a Wi-Fi connection or any app** on your phone. This solution is easy to use and takes care of the privacy of the transmission. The range of up to **300 meters outdoors and 50 meters indoors** offers the freedom to move around the house and garden without losing signal.

Flexible mounting for any room

Mount the camera wherever it best fits – on a shelf, wall, or crib.

Extralink Reya Nanny is an excellent option for:

- Parents of infants and toddlers who want to keep a constant eye on their baby.
- People who appreciate functional solutions that make daily care easier.
- Users who prefer devices that operate without the need to connect to a Wi-Fi network.
- Those who are looking for an aesthetically pleasing and easy to install device for the children's room.
