Full product description

Logitech B100 - Unique user experience

The**Logitech B100** is a plug-and-play mouse. It's easy to set up - just plug it into a USB port and get to work. Both left- and right-handers can work comfortably all day with our B100 mouse. The mouse is designed to be equally comfortable for prolonged use, regardless of the user's natural position.

Simplicity and comfort

The minimalist design will match your professional setup. Requires no additional software or drivers and is compatible with a wide range of operating systems including **Windows Vista, Windows 7, Windows 8 and Windows 10. Linux kernel 2.4 . Mac OS X 10.3.9** or later and **Chrome OS**.

The **800 DPI** configuration is ideal for performing everyday tasks efficiently, and it also features an optical sensor so you don't have to worry about lag or interference. Precise, fast performance is possible on almost any surface - you don't always have to use a mouse pad. **The 180cm** cable helps you to have a perfect and spacious positioning for comfortable work.

The **Logitech B100** mouse is designed to Logitech's quality and design standards, providing practicality and comfort for long hours of use.
