Price: **201.35 zł** gross / 163.70 zł net

Referention number: DNXXGGJKMGRMMGK

Product features

Power source	Batteries
Height	116.6 mm
Response time	1 ms
Cartridge type	AA
Buttons type	Pressed buttons
Sensor	HERO
Width	62.15 mm
Depth	38.2 mm
Battery life (max)	250 h
Buttons quantity	6
Buttons durability (million clicks)	10
Feet durability	250 km
Battery capacity	2000 mAh
Frame rate	400 frames per second
Master (outer) case GTIN (EAN/UPC)	50992060778218
Package weight	181.6 g
Number of scroll wheels	1
Harmonized System (HS) code	84716070
Master (outer) case height	118 mm
Mouse tracking speed	400 ips
Master (outer) case width	165 mm
Number of programmable buttons	6
Package depth	102 mm
Package height	155 mm

Master (outer) case gross weight	912 g
Package width	46 mm
Package type	Box
Wireless receiver interface	USB Type-A
Receiver type	Nano receiver
Receiver included	Yes
Programmable mouse buttons	Yes
User guide	Yes
Master (outer) case length	195 mm
Acceleration (max)	40 G
Mac operating systems supported	macOS
Windows operating systems supported	Yes
Polling rate	1000 Hz
Battery technology	Alkaline
Number of batteries supported	1
Product colour	Black
Device interface	Wireless RF
Scroll type	Wheel
Other operating systems supported	ChromeOS
Customizable movement resolution	Yes
Movement resolution	12000 DPI
Feet material	Polytetrafluoroethylene (PTFE)
Movement detection technology	Optical
Recommended usage	Universal
Designation	Gaming
Baby unit batteries included	Yes
Product weight	99 g

Full product description

G305 - Wireless Optical Mouse

The **Logitech G305** is a Lightspeed wireless gaming mouse designed for serious performance and the latest technological innovations at an affordable price. Now in a variety of vibrant colors.

Lightspeed Technology

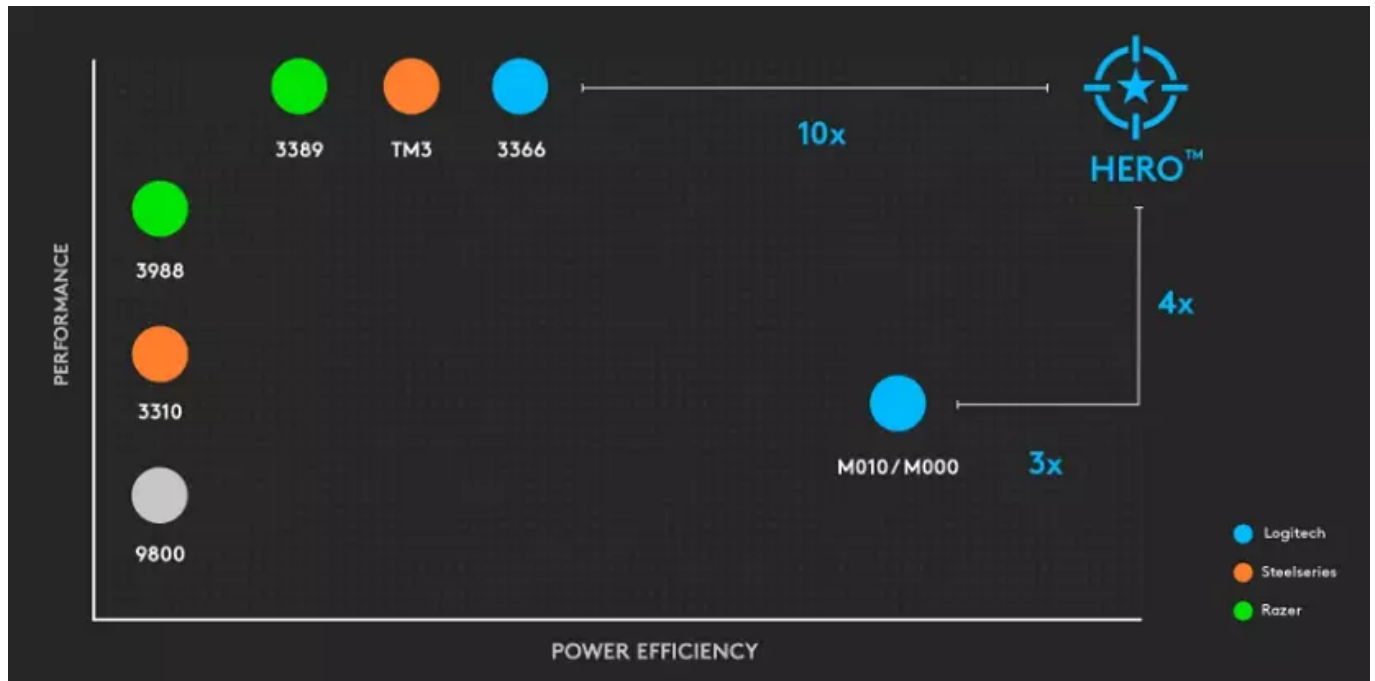

All through comprehensive engineering and design, **Logitech G** has developed a robust wireless solution that addresses the fundamental issues of latency, stability and connectivity. The end result is **LIGHTSPEED**, a professional-grade wireless solution that delivers wired-like performance.

HERO optical sensor

HERO is a revolutionary new optical sensor designed by Logitech G that delivers class-leading performance and up to **10 times** the power efficiency (compared to the previous generation).

The sensor delivers exceptionally accurate and consistent performance without smoothing, filtering or acceleration **from 200 to 12,000 DPI**. The G305 can store up to 5 profiles with up to 5 DPI levels each in onboard memory.

Extended battery life and ultra-lightweight device

The battery life is **up to 250 hours** on a single AA battery. In Endurance mode, which can be selected via the Logitech G HUB, the battery can last **for up to 9 months** of typical use. The mouse will let you know when 15% of the battery remains. A wireless gaming mouse doesn't have to be heavy. The G305 is very light, **weighing just 99 grams**, made possible by its lightweight mechanical design and highly efficient battery life.

Buttons you can program yourself

The left and right mouse buttons have a durability of **up to 10 million clicks**. The G305 also has a middle click, a DPI button, and two side buttons that can be programmed to your preference using the **Logitech G HUB**.

Mechanical buttons

Separate mechanical buttons increase consistency and help reduce the force required to click. This ensures crisp, reliable button performance that you can rely on even during the most intense gaming sessions.

Play where you want

With a rugged, lightweight design in a compact size and a built-in USB flash drive with nano receiver, the G305 will make a great travel companion.
