Width	71 mm
Depth	109 mm
Receiver depth	6.1 mm
Receiver height	1.8 g
Receiver height	14.4 mm
Receiver width	18.7 mm
Package weight	179.5 g
Master (outer) case height	167 mm
Master (outer) case width	144 mm
Package depth	76 mm
Package height	136 mm
Master (outer) case gross weight	1880 g
Package width	50 mm
Master (outer) case length	260 mm
Movement resolution	1000 DPI
Product weight	135 g

Full product description

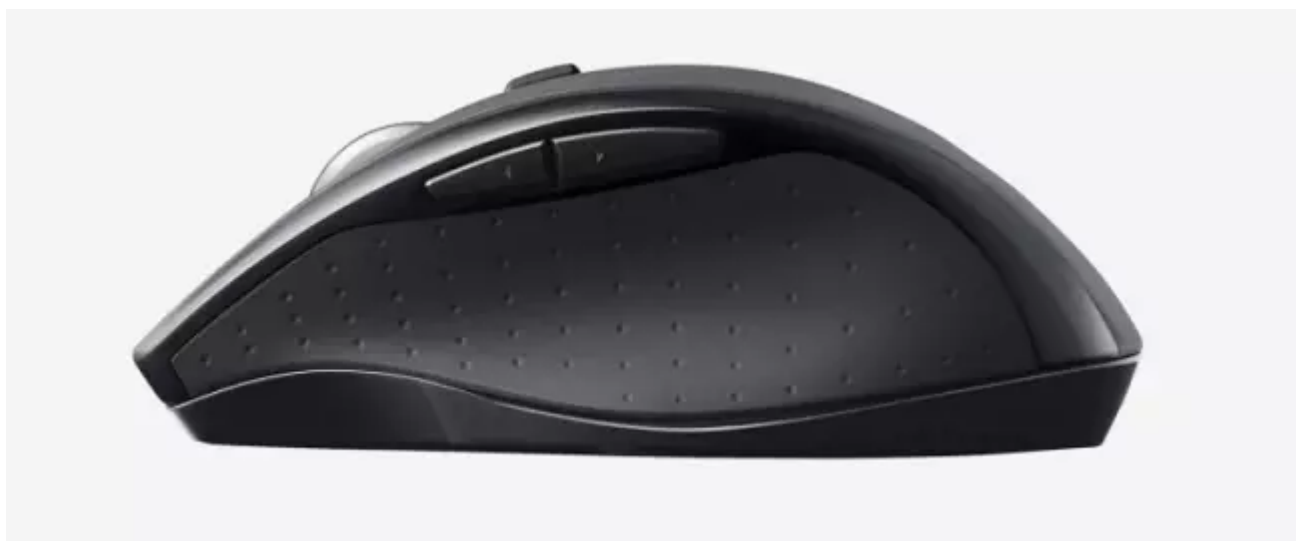

LOGITECH M705 - Click more. Scroll more. Do more.

The **Logitech Marathon M705** mouse is a precision mouse with a contoured shape that was made with you and long-lasting use in mind. It features dual scrolling modes and excellent cursor control to help you get any task done. It uses significantly less power than comparable wireless mice from other companies. That means you can go **up to three years** without a battery replacement.

Everything under control

Super-fast scrolling lets you browse long documents and web pages with a single spin of **the metal scroll wheel**, which operates almost frictionlessly. **Two thumb buttons** let you quickly move between web pages. **The sculpted shape of the right hand** guides it to a naturally comfortable position and allows you to adjust settings at your fingertips.

Wireless convenience

Up to 10 meters range is stronger and more reliable with wireless connectivity. And it's all thanks to the stable **USB Unifying** receiver. The tiny **Logitech Unifying** receiver stays in your laptop. You don't have to unplug it when you move around, so there's no worry about it getting damaged or lost. You can easily add compatible wireless mice and keyboards to the same wireless receiver. The receiver allows us to connect up to 6 devices.

Tracking precision

Grade laser tracking provides smooth, responsive and precise cursor control on surfaces that are problematic for standard optical mice, such as polished or wood-like tables. Optical tracking provides precise cursor control and easy navigation on most surfaces at **1000 DPI resolution**.

Full control

Logitech Options helps you program the **M705** mouse's five buttons, including convenient side buttons. Create shortcuts to open browser windows, enable full-screen mode, open applications and more. Navigate web pages, spreadsheets and images quickly and increase your efficiency. Intuitive software makes customization easy.
