Full product description

Lytmi Fantasy 3 Pro TV - First-ever LED synchronizer to support VRR and ALLM

It **automatically** turns on before the game mode in each session, greatly improving the gaming experience. **The Neo 3 system** is capable of supporting high resolution and high refresh rate settings (**8K at 60 Hz and 4K at 120 Hz**). Enjoy uniquely immersive images while playing high-definition games.

Innovation at your fingertips

The Lytmi Fantasy 3 Pro TV is a state-of-the-art LED lighting kit that can change the way you watch TV. Enjoy a highly immersive high-performance light game with **16.8 million** colors and a high refresh rate. **Lytmi Fantasy 3 Pro TV** provides an amazing visual experience that will transport you to the world of your favorite movies, games and TV shows.

Płynne działanie nawet w szybkich scenach

Automatycznie włącza się przed każdą sesją gry

Immerse yourself in a world of color and rhythm

The **Lytmi Fantasy Pro 3 TV** light bar will pleasantly surprise you with the speed at which it synchronizes with your device's screen, creating an exciting atmosphere for watching movies, games and videos. You can also enjoy synchronizing the light with your favorite music, creating a musical show right in your room.

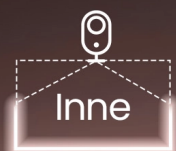

Enjoy high quality

The **Neo Box 3** allows you to connect various devices and supports wireless communication via Wi-Fi at 2.4 GHz for stable connection and convenient control. HDMI 2.1 provides high quality video and audio. You can enjoy amazing video resolutions up to **8K 60 Hz, 4K 120 Hz and 1080P 120 Hz**, as well as support for HDR 10 and **Dolby Vision** for vivid and realistic images. Three HDMI 2.1 input ports allow you to pair your favorite HDMI media streaming devices, such as **TV Stick, Apple TV, Xbox and PlayStation**.

Easy light control

The Lytmi Fantasy 3 Pro TV is easy to install and can be controlled from a smartphone or tablet. Simply download the Lytmi app and connect the LED strip to the same Wi-Fi network as your TV. Once connected, you can use the app to choose from a variety of ready-made lighting effects or create your own. The LED strip is also compatible with various voice assistants, including **Amazon Alexa** and **Google Assistant**. This means you can control the lighting with voice commands.
