Full product description

Mantar aggregation cabinet M 52/52/16 ST - FTTH 144J

Mantar, aggregation cabinet M 52/52/16 ST - FTTH 144J, dedicated for FTTH network. It constitutes a mechanical shield for passive elements of optical fibre networks. Designed for wall mounting in places particularly vulnerable to devastation and burglary. It enables terminating cables coming into the building from the telecommunication control panel, vertical cables as well as mounting optical splitters. The switch has a 144 J cumulus field (72 SC Duplex holes). It is possible to insert cables from the top and bottom, as the cabinet has 2 holes each in the corners at the top and one at the bottom (ø38/29 - plugged).

Features:

- Organising handles for easy laying of the cable stock (at the back, under the switch)
- Material: 1.5 mm thick steel sheet
- Powder coated in colour: RAL7035 - light grey, thick structure
- Locking: 2 padlocks T-13 disc with 8mm diameter shank

Additional equipment:

- SC adapters
- Padlocks Barcz
- Weld trays
- Pigtailes
