Full product description

Mantar aggregation cabinet M 52/52/16 WZM - FTTH 144J

Mantar, aggregation cabinet M 52/52/16 WZM - FTTH 144J dedicated for FTTH network. It constitutes a mechanical shield for passive elements of optical fibre networks. Designed for wall mounting in places particularly exposed to devastation and burglary. It enables terminating cables coming into the building from the telecommunication control panel, vertical cables and mounting optical splitters. It has organizational handles for easy laying of cable stock (in the rear part, under the switch). It is possible to insert cables from above and below. The cabinet has 2 holes each in the corners from the top and one at the bottom (ø38/29 - plugged).

**Features:**

- The switch has a 144 Jumbo-type cumulation field (72 SC Duplex holes).
- Material: 1.5 mm thick steel sheet
- Powder coated in colour: RAL7035 - light grey, thick structure
- Locking: safe lock (with high security IMP certificate according to PN- ENV 1300:2002)

Additional equipment:

- SC adapters
- Weld trays
- Pigtailes
- Additional safe keys
