Full product description

Mantar surface-mounted cabinet reinforced M-40/30/20 WZM

Plaster reinforced Mantar M-40/30/20 WZM this model is used when it is not possible to install the cabinet in a recessed hole. The cabinet is made of 1.5 mm thick steel sheet and has a full door and is locked with a key. It is light grey in colour, easy to install and resistant to corrosion. Reinforced Mantar cabinet is a mechanical cover for telecommunication equipment, especially in places exposed to devastation and burglary.

Features:

- Standard with 2 holes at the top and bottom for cable entry (ø38 blind)
- Designed for wall mounting in areas particularly vulnerable to devastation and burglary
- It provides mechanical shielding for telecommunications equipment
- Body reinforced with a 2 mm thick sheet metal bracket
- Special door construction reinforced with 2 mm thick metal angles
- Material - 1.5 mm thick steel sheet
- Thick structure, colour RAL7035 - light grey
- Powder coated
- Locking - safe lock with IMP high security certificate according to PN- ENV 1300:2002
- Reservation of a separate key code for each customer, different codes on request (if the key is lost, the code can be changed without changing the locks)

**Accessories:**

- Wall mounted fibre optic switch - PSN 1, PSN 2
- Mounting plate made of 1 mm thick galvanized sheet metal
- Mounting plate OSB 8 mm thick
