MERCUSYS[®]

Manufacturer: MERCUSYS

Referention number: DNXGGIMODRMMGH

Product features

Storage relative humidity (H-H)	5 - 90%
Product type	Mesh system
Height	88 mm
Antenna type	Internal
LED indicators	Yes
Firewall security	SPI Firewall
Width	88 mm
Depth	88 mm
Security algorithms	WPA2-PSK
Point-to-point protocol over Ethernet (PPPoE)	Yes
Humidity measurement range	10 - 90%
Harmonized System (HS) code	85171800
Dynamic IP	Yes
Networking standards	IEEE 802.11a
Ethernet LAN (RJ-45) ports	3
Ethernet cable	Yes
DC-in jack	Yes
Operating temperature (T-T)	0 - 40 °C
AC adapter included	Yes
Quality of Service (QoS) support	Yes
Static IP	Yes
Reset button	Yes

Number of guest networks (2.4 GHz)	1
Number of guest networks (5 GHz)	1
Maximum coverage	550 m2
Wi-Fi band	Dual-band (2.4 GHz / 5 GHz)
Wi-Fi standards	802.11a
Top Wi-Fi standard	Wi-Fi 5 (802.11ac)
Product colour	White
Guest access	Yes
WLAN data transfer rate (first band)	600 Mb/s
WLAN data transfer rate (second band)	1300 Mb/s
WLAN data transfer rate (max)	1900 Mb/s
DHCP client	Yes
DHCP server	Yes

Full product description

Halo H50G - WiFi for the whole home

Using advanced Mesh technology, Halo devices work together to form a single home network with one WiFi name and password.

Seamless Roaming

Automatically switch between Halo devices as you move around your home, always getting the **best signal** and enjoying **the fastest connection** for all your devices.

aplikacji

Wi-Fi in every corner of your home

Mercusys Mesh allows the device to create a unified wireless network system and provide access to a strong Wi-Fi signal in every nook and cranny of a 550 m² home. Get Wi-Fi Enjoy Wi-Fi from your front door to the garden.

You can expand your Wi-Fi mesh coverage at any time simply by adding another Halo unit.

As many as six signal boosters

The Halo H50G has six advanced signal amplifiers and receivers, making greater transmission power and receiving signals sent by connected devices much faster. The transmission distances are thus longer and the signal sent towards Wi-Fi devices is stronger.

Connect more than 100 devices

The Halo**H50G** takes full advantage of the power of combining three separate **AC1900-based** units to provide **fast, seamless** Wi-Fi access to **over 100 devices**. Equipped with MU-MIMO technology, the Halo system is able to maintain simultaneous connections to phones, computers and IoT devices, even when they are running at peak performance

Gigabit ports

No need to differentiate between LAN/WAN ports with WAN/LAN auto-sensing technology. The Halo H30G takes full advantage of your ISP's Internet access and transmits data to wired devices at lightning-fast speeds, delivering superior performance with fully gigabit ports that are 10 times faster than Ethernet ports. 2 Gigabit ports per Halo unit for lightning fast wired connections.
