### Product features

|                             |                       |
|-----------------------------|-----------------------|
| Product type                | Tabletop router       |
| USB charging port           | No                    |
| Memory card slot(s)         | No                    |
| Security algorithms         | WPA2-PSK              |
| WAN connection type         | RJ-11                 |
| Storage temperature (T-T)   | -40 - 70 °C           |
| Cables included             | LAN (RJ-45)           |
| Ethernet LAN interface type | Ethernet              |
| Quick start guide           | Yes                   |
| Networking standards        | IEEE 802.11b          |
| Ethernet LAN (RJ-45) ports  | 3                     |
| Operating temperature (T-T) | 0 - 40 °C             |
| AC adapter included         | Yes                   |
| Wi-Fi band                  | Single-band (2.4 GHz) |
| Wi-Fi standards             | 802.11b               |
| Ethernet LAN                | Yes                   |
| SIM card slot               | No                    |
| Top Wi-Fi standard          | Wi-Fi 4 (802.11n)     |
| Power source type           | AC                    |
| Antenna design              | External              |
| Antennas quantity           | 2                     |
| Antenna direction type      | Omni-directional      |

|                               |          |
|-------------------------------|----------|
| ADSL2+                        | Yes      |
| ADSL2                         | Yes      |
| ADSL                          | Yes      |
| Product colour                | White    |
| Ethernet WAN                  | Yes      |
| WLAN data transfer rate (max) | 300 Mb/s |
| DHCP server                   | Yes      |
| 3G/4G USB modem compatibility | No       |
| DSL WAN                       | Yes      |

## Full product description

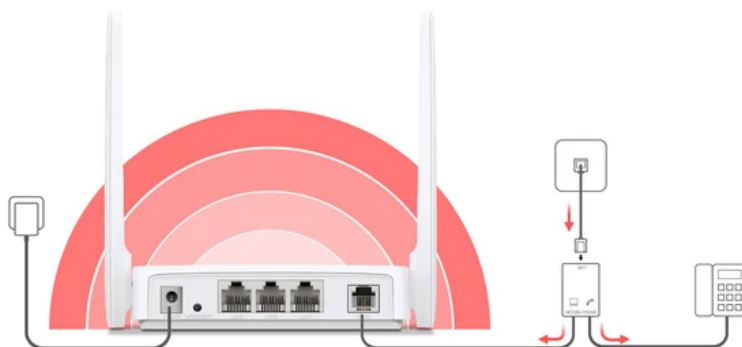

### Merkusys router MW300D

A WiFi router is a device that allows you to split the Internet signal and emit WiFi waves in your household. Thanks to this device it is possible to connect all devices with Internet access in a given area to the global network. **Merkusys MW300D router** allows you to enjoy fast and wireless data transmission in every corner of your home.

## Device parameters

Merkusys MW300D router has one **WAN** port with a **RJ11** plug. Thanks to this port, devices using the wireless network will have access to the global computer network. In addition, the device has three **LAN** ports needed to create a local computer network. The parameters of the router allow to achieve **wireless transmission speed of 300 mbps**. The device operates at **2.4 GHz**.

## Purpose

The **Mercusys MW300D** is ideal for homes with devices that require high-speed wireless internet. The **router's performance contributes significantly to the speed of information exchange** and, thanks to its high wireless transmission speed, it also contributes to the comfort of entertainment such as online games and streaming platforms.

## Enhance the Wi-Fi signal

Two integrated high gain antennas provide omni-directional transmission of very strong Wi-Fi and access to a reliable wireless network throughout the house.
